SPORT FISHING LICENSE

ILLINOIS RESIDENTS:

A resident sport fishing license may be obtained by anyone who has been a resident of Illinois 30 days prior to purchase. Anglers under 16 years of age, and persons declared legally disabled or blind, may fish without a license. Owners or tenants (if they reside on the land) may fish in waters on or flowing over their lands without a license. This exemption does not apply to club and organizational lakes or lake developments.

Persons on active duty in the Armed Forces are considered residents. A person on active duty in the Armed Forces, who entered the service from Illinois and is an Illinois resident, may fish without a license while on leave.

NON-RESIDENTS:

Non-residents of Illinois may purchase sport fishing licenses to fish waters of the state. Non-resident anglers under 16 years of age may fish without a license. All other non-resident anglers must purchase sport fishing licenses before fishing in Illinois (except in licensed fee fishing areas or on boundary rivers).

Resident or non-resident anglers who fish at fee fishing areas licensed by the Department of Natural Resources are not required to have a license.

Non-residents holding licenses from states bordering Illinois are not required to have an Illinois license to fish on the Illinois side of rivers adjoining the licensing state (see page 61 BOUNDARY RIVERS).

Anglers should have their license in possession at all times while fishing. Licenses expire on March 31 each year.

CURRENT FEES

(INCLUDES AGENT'S FEES):

Resident sport fishing; annual	\$15.00
Resident sport fish;	
65 years old and over	\$7.75
Resident and non-resident sport fishing;	
under 16 years of age	NONE NEEDED
Resident sport fishing;	
disabled, blind	NONE NEEDED
Resident and non-resident sport fishing;	
24-hour license	\$5.50
(includes salmonid fishing privileges)	
Non-resident sport fishing. (10 days)	\$13.00
Non-resident sport fishing. (annual)	\$24.50
Sportsmen's License	\$26.25
(combined hunting and fishing licenses)	
Senior Sportsman's License	\$13.50
(combined hunting and fishing licenses;	
65 years old and over)	
Lake Michigan Salmon Stamp	
(licensed anglers only)	\$6.50
Inland Trout Stamp (all waters except Lake Michigan)	
(licensed anglers only)	\$6.50
Resident lifetime sport fishing	\$435.00
Resident lifetime	
combined (hunting and fishing)	\$765.00

LOST, STOLEN, DESTROYED LICENSE REPLACEMENT:

1. Vendors cannot issue a duplicate license.
2. Obtain an Application for Duplicate License or Permit from a vendor or IDNR office where

licenses are sold.

3. Mail completed application plus \$3.00 fee . . . to: Illinois Department of Natural Resources License Section P.O. Box 19459 Springfield, IL 62794-9459

DISABLED OR BLIND PERSONS:

In order for disabled or blind persons who are Illinois residents to fish without a license, the person must be able to show proof of disability in the form of one of the following:

1. **A State disabled person I.D. card** (available from the Secretary of State through the drivers license examining station) showing a Class 2 or Class 2A disability. **Applies to Illinois residents only.**
2. **Veterans disability card** - (available from the Illinois Department of Veterans' Affairs Office) Veterans who are at least 10% disabled with service-related disabilities or in receipt of total disability pensions may fish with sport fishing devices during those periods of the year it is lawful to do so without being required to have a license, on the condition that their respective disabilities do not prevent them from fishing in a manner which is safe to themselves and others. **Applies to both Illinois residents and non-residents.**

INTERNET PURCHASES:

To purchase fishing and hunting licenses and stamps over the Internet, please visit the Department's Home Page at: <http://dnr.state.il.us> Boat renewals may also be done at this site.

SUMMARY OF FISHING REGULATIONS

ADMINISTRATIVE RULES

The fisheries of Illinois are administered to assure conservation and enhancement of the fishery resource and the equity of the fishing public, while providing for maximum enjoyment. Statutes provide the framework by which fishing opportunities are administered. These opportunities, however, are sometimes subject to a variety of regulations, depending on local site conditions and situations peculiar to a particular fishery. These detailed regulations are set forth in administrative rules. Such rules are enforced in the same manner as are provisions of the statutes, and are subject to the same penalties.

AQUATIC LIFE

Aquatic life is statutorily defined as all fish, reptiles, amphibians, crayfish and mussels.

BAIT FISHING

A sport fishing license permits the use of legal-sized cast nets, shad scoops, minnow traps and minnow seines to obtain shad, alewife, minnows and crayfish to use as bait, provided they are not sold or are not identified as threatened or endangered aquatic life. All cast nets shall be not larger than 8 feet in diameter or of a mesh size not larger than 3/8 inch bar measurement. All shad scoops shall be not larger than 30 inches in diameter or of a mesh size not larger than 1/2 inch bar measurement or longer than 4 feet in length. Minnow seines shall not be longer than 20 feet, deeper than 6 feet or contain mesh size larger than 1/2 inch bar measurement. Minnow traps shall not be

longer than 36 inches, nor wider than 24 inches, nor use mesh larger than 1/2 inch bar measurement.

Minnows and crayfish may be collected with traps of metal screen or hardware cloth, plastic, or nylon mesh or netting. Such traps may not be more than 24 inches in width or diameter or more than 36 inches in length nor use a mesh of more than 1/2 inch bar measurement. Each entrance aperture may not exceed 1.5 inches in diameter. If unattended, such devices must be tagged with the name and mailing address of the person operating the device. Minnows and crayfish collected in such devices may only be taken for personal use and may not be sold or bartered.

BLUEGILL AS BAIT

There is nothing in the Illinois Fish Code which prohibits the use of legally taken bluegill or sunfish as bait for another species of fish. The bluegill/sunfish must have been taken by a properly licensed sport fisherman using legal sportfishing devices. You must also observe all size and creel limits both where the bluegill/sunfish were taken and where they are being used as bait. Also, it is illegal to cut up or dress or be in possession of cut up or dressed fish on any body of water where there is a size limit for that particular species of fish.

CLEANING FISH ON WATERS

No fish entrails or carcass may be disposed of into the waters of Illinois after cleaning. No fish species may be dressed (filleted or head and

tail removed) on any waters to which length limits are applicable.

COMMERCIAL FISH

The minimum size limit on fish taken commercially or by commercial fishermen for market (except in the Ohio River) is 15 inches in total length for: channel catfish, flathead catfish, blue catfish and white catfish. There is no size limit on carp, drum, bullhead, buffalo, shovelnose sturgeon, paddlefish, sucker, gar (except alligator gar), bowfin, eel, yellow perch, chub, moon-eye, goldeye, carpsucker and smelt. All other species may not be taken commercially, but if caught incidentally must be returned immediately to waters where taken.

COMMERCIAL LICENSES

A commercial fishing license is required for any person who uses a commercial device to take fish or minnows. A resident commercial fishing license can be issued only to persons who have resided in Illinois for at least a year. The commercial fishing license expires March 31 annually. In addition, the holder of this license must obtain a license for each commercial device fished.

continued on next page

New regulations for the 2010 fishing season are identified by gray shading.
Anglers should refer to all applicable regulations prior to fishing any body of water.

A commercial musseling license is required for any person who commercially harvest mussels. Any person assisting a license commercial musselor in taking mussels must have a commercial musseling license.

Commercial licenses and information are available at the Department of Natural Resources, Commercial Permits Office, P.O. Box 19458, Springfield, IL 62794-9458.

CRAYFISH

It is a violation of state law to import, possess, sell or use as bait live rusty crayfish within the State of Illinois. The rusty crayfish may be distinguished by a dark rusty spot on both sides of the carapace and a rusty-red band followed by a dark stripe on the large pincers (claws). This species destroys aquatic vegetation and eats the eggs of various fishes, which negatively affects fish reproduction.

Crayfish, except endangered or threatened species, may be taken for bait, using legal sized cast nets, shad scoops, and minnow seines, provided that they are not sold or bartered. All cast nets shall not be larger than 8 feet in diameter or of a mesh size not larger than 3/8 inch bar measurement. All shad scoops shall not be larger than 30 inches in diameter or of a mesh size not larger than 1/2 inch bar measurement or longer than 4 feet in length. Minnow seines shall not be longer than 20 feet, deeper than 6 feet or contain mesh size larger than 1/2 inch bar measurement.

Crayfish may be collected with traps of metal screen or hardware cloth, plastic, or nylon mesh or netting. Such traps may not be more than 24 inches in width or diameter or more than 36 inches in length nor use a mesh of more than 1/2 inch bar measurement. Each entrance aperture may not exceed 1 1/2 inches in diameter. If unattended, such devices must be tagged with the name and mailing address of the person operating the device. Crayfish collected in such devices may only be taken for personal use and may not be sold or bartered.

Use a flat board, close mouth, and compress the tail.

CULLING

It is illegal to replace a smaller fish held in possession with a larger fish unless: the smaller fish is counted toward the daily limit or released within the confines of a bona-fide catch-and-release fishing tournament which requires the participants to have a boat live well with a pump constantly adding fresh or recirculating water.

DAILY CREEL AND SIZE LIMITS (STATEWIDE)

- Length is measured from the tip of the snout to the end of the tail with the fish laid flat on a ruler, with the mouth of the fish closed and the tail lobes pressed together.

- No fish species may be dressed (filleted or head and tail removed) on any waters to which length limits are applicable. Regardless of where taken, no fish less than the specified minimum length or more than the daily creel shall be possessed while taking from, or on the waters to which length limits and/or daily creel limits apply.

- Statewide limits by type of fish:

(A) Channel Catfish

There are no daily creel or size limits except in those waters listed under Site Specific Regulations.

(B) Largemouth Bass, Smallmouth Bass, Spotted Bass

Daily creel limit is 6 bass, either singly or in the aggregate except as specified under Site Specific Regulations. In streams and rivers (excluding the mainstem of the Mississippi, Ohio, and Wabash Rivers) the daily creel can contain no more than 3 smallmouth bass. In streams and tributaries statewide except for the Mississippi, Ohio, Wabash, and Illinois Rivers, all smallmouth bass must be immediately released between April 1 and June 15. There is no statewide size limit.

(C) Muskellunge, Northern Pike and their Hybrids

- All pure muskellunge and muskellunge hybrids (tiger muskie) taken must be 36 inches in total length or longer, except in those waters listed in the Site Specific Regulations where pure muskellunge taken must be 48 inches in total length or longer.
- No more than 1 muskellunge or muskellunge hybrid (tiger muskie), either singly or in the aggregate, may be taken per day, except as specified under Site Specific Regulations.
- All northern pike taken must be 24 inches in total length or longer, except in the Mississippi River and Ohio River where there is no length limit.

- No more than 3 northern pike may be taken per day, except as specified under Site Specific Regulations.

(D) Crappie (White, Black or Hybrid Crappie)

There are no creel or length limits except in those waters listed under Site Specific Regulations.

(E) Bluegill and Redear Sunfish

There are no creel or length limits except in those waters listed under Site Specific Regulations.

(F) Striped Bass (Ocean Rockfish), White Bass and Hybrids

There are no daily creel limits or minimum size limits for striped bass (ocean rockfish), white bass, yellow bass and their hybrids which are less than 17 inches in total length, except in those waters listed under Site Specific Regulations. For those fish 17 inches in total length or longer, the daily limit is 3 fish, either singly or in the aggregate except on the Mississippi River bordering Missouri where there is a 30 fish daily creel limit. In the Mississippi River between Illinois

and Iowa, there is a 25 fish daily creel on striped bass, white bass, yellow bass and their hybrids, either singly or in the aggregate.

(G) Trout and Salmon

Statewide, the daily creel limit is 5 trout or salmon, either singly or in the aggregate. In Lake Michigan, the daily creel limit is also 5 fish (singly or collectively); no more than 5 fish of any one species (except for lake trout where 2 fish is the daily creel limit; for all species the minimum length limit is 10 inches.

(H) Walleye, Sauger, and their Hybrids

Daily creel limit is 6 walleye, sauger, or their hybrids either singly or in the aggregate, except in those waters listed under Site Specific Regulations. All walleye, sauger, or their hybrid taken must be 14 inches in total length or longer, except in the Mississippi River, Ohio River, Wabash River, or as specified under Site Specific Regulations.

For purposes of length or creel limit regulations, anglers must check the lower portion of the tail fin. **WALLEYE** have a white tip on the lower tail fin. **SAUGER OR HYBRID SAUGER/WALLEYE** do not have a white tip on the lower tail fin.

(I) Injurious Species:

Snakeheads, Walking Catfish, Zebra Mussels, River Ruffe, Black Carp, Gobies (Round, Tubenose), Rusty Crayfish, Rudd, Bighead Carp, Silver Carp.

There are no catch or size limits. Possession of live specimens, progeny thereof, viable egg, or gametes is prohibited. For rusty crayfish, possession of living specimens is prohibited except the holders of an approved aquaculture permit with a letter of authorization to import/possess this species.

Protecting Our Natural Resources

To prevent the introduction and spread of aquatic nuisance species, Illinois has implemented an Injurious Species regulation (Administrative Code 805). Of special note to anglers, this rule **prohibits the possession** of species deemed to be harmful to our lakes and rivers, and to the fish and wildlife that inhabit them. These harmful species include

Bighead Carp	Rusty Crayfish
Black Carp	Silver Carp
Eurasian Ruffe	Snakeheads
Rudd	Tubenose Goby
Round Goby	Walking Catfish

To view the complete list of regulated species and full text of Ad. Code 805, please visit <http://dnr.state.il.us/legal/adopted/805.pdf>. For more information on aquatic nuisance species, log on to www.iisgcp.org/il-ans.

DAILY FEE FISHING AREA

A sport fishing license and "Inland Trout Stamp" are not required to fish in a Department of Natural Resources licensed daily fee fishing area.

DIP NETS

A sport fishing license allows the holder to take smelt in Lake Michigan with a dip net not exceeding 12 feet in diameter and having a mesh size not less than 1 inch diagonal stretch. In other waters carp, carpsucker, buffalo and gizzard shad may be taken with a dip net up to 15 feet in diameter and with a mesh size no less than 1 1/2 inches bar measure. Such equipment may not be used within 100 feet of a dam or to take game fish.

ENDANGERED AND THREATENED SPECIES OF AQUATIC LIFE

There are more than 80 species of aquatic life in Illinois currently on the State Endangered and Threatened Species (E&T) List which may not be taken for any purpose. For more information or to obtain a listing of these species of aquatic life, contact the Endangered Species Coordinator.

The one species of fish on the E&T list most likely taken by sport fishing is the lake sturgeon. Accidental catches of lake sturgeon should be released immediately.

FISH PRESERVES

All waters under state jurisdiction are statutorily fish preserves, open only to sport fishing. However, certain waters are open to commercial fishing by administrative rule. Contact the Department of Natural Resources for more information.

FISHING GUIDES

Fishing guides are required to possess a passenger for hire license.

FREE FISHING DAYS

During the period of June 11, 12, 13, and 14, 2010, it shall be legal for any person to fish in waters wholly or in part within the jurisdiction of the State, including the Illinois portion of Lake Michigan, without possessing a sport fishing license, inland trout stamp, or salmon stamp.

FREE GROUP FISHING PERMITS

The Illinois DNR may issue at no cost, the following two types of group fishing permits: (1) for hospital patients, nursing home resi-

dents, or handicapped people in connection with supervised fishing for therapy; and (2) for group events that have as their primary purpose the promotion of sport fishing in Illinois and are sponsored by church groups, 4-H, Scouts, IDNR, nursing homes, etc. For more information or an application form write to the Illinois Department of Natural Resources.

FROGS

A sport fishing license is required to take bullfrogs. Bullfrogs may be taken by hand, pole and line fishing methods, pitchfork, landing net, bow and arrow or bow and arrow device, spear or gig. Firearms, air guns, gas guns or commercial fishing devices such as dip nets, hoop nets, traps or seines are not allowed in the taking of bullfrogs. Bullfrogs may be taken from June 15 to August 31 (both days inclusive). The daily limit is 8 bullfrogs with 16 bullfrogs being the possession limit.

ICE FISHING

A sport fishing license is required for ice fishing. The ice angler may use a maximum of three poles or tip-ups with no more than two hooks on each line. Sites with a two pole and line fishing only restriction may use a maximum of two poles or tip-ups. Holes cut in the ice are limited to 12-inch diameter or less. Shelter structures are limited to portable construction of metal or wood framework, covered with canvas, paper, plastic material or similar fabric. Each shelter shall have the name and address of the owner attached, and after March 1 the shelter must be removed when not in use, and not left unattended at any time. All poles and tip-ups shall be constantly attended and kept under observation by the angler.

ILLEGAL DEVICES

Use of the following devices in the taking of aquatic life is prohibited: electricity or electrical devices; lime; acid; medical, chemical or mechanical compounds; dope; drugs; fishberry; dynamite; nitroglycerine or other explosive; snare; treated grain; firearms; air gun; gas gun; wire basket; wire seine; wire net; wire trotline or limb lines of any kind.

INLAND TROUT STAMP - ALL WATERS (except Lake Michigan)

Anglers are required to purchase an "Inland Trout Stamp" prior to taking of trout from all waters except Lake Michigan. Fees are (including agent's fees):

Resident and Non-resident; annual . . . \$6.50
Resident; 65 years old and over . . . \$6.50
Resident and non-resident
under 16 years of age NONE

Resident; disabled, blind NONE
The 24-hour license includes trout fishing privileges.

MINNOWS

A minnow is statutorily defined as any fish in the minnow family (Cyprinidae) except carp and goldfish.

Persons possessing a valid sport fishing license may take minnows with cast nets (not larger than 8 feet in diameter and having a mesh size not larger than 3/8 inch bar measurement), shad scoops (not larger than 30 inches in diameter or longer than 4 feet in length and having a bar mesh size not larger than 1/2 inch), or a minnow seine (no longer than 20 feet in length, deeper than 6 feet or having a mesh size larger than 1/2 inch bar measurement), or a trap not more than 36 inches in length, 24 inches in width, and with mesh no larger than 1/2 inch bar measurement.

MUSSELS

Only persons possessing a valid commercial mussel or license may take mussels from designated waters. The possession of a sport fishing license does not entitle any persons to take and/or possess mussels.

POLLUTION

The Department of Natural Resources cooperates with the Environmental Protection Agency in making pollution investigations. Anglers are often the first to observe water pollution, and their assistance is invited in reporting these instances to District and Regional Fisheries Biologists, to a Conservation Police Officer or to the Division of Fisheries in Springfield.

It is unlawful for waste or sewage to be discharged into waters so as to kill aquatic life. It is also unlawful to abandon or deposit wire, cans, bottles, glass, paper, trash, rubbish, cardboard, wood cartons, boxes, trees, brush or other insoluble materials into the water or on the ice, or at any place on the bank where such debris is liable to be washed into the water. Strict penalties are provided for violation of this section of the statute.

PROPERTY

Consideration for others is a philosophy of the sportsman. Consent of the landowner or occupant of the premises shall be obtained before fishing or attempting to take aquatic life on another's property or within waters other than public waters of the state. Care should be taken not to cause damage to the property.

SALE OF AQUATIC LIFE

No fish, amphibians, reptiles, crayfish, or parts thereof (including eggs) taken by sport fishing license methods (including snagging) may be bought, sold or bartered.

SALMON STAMP - LAKE MICHIGAN

Anglers are required to purchase a "Lake Michigan Salmon Stamp" prior to taking of salmon and trout from Lake Michigan. Fees are (including agent's fee):

Resident and non-resident; annual . . . \$6.50
Resident; 65 years old and over \$6.50
Resident and non-resident
under 16 years of age NONE
Resident; disabled, blind NONE

The 24-hour license includes salmonid fishing privileges in Lake Michigan.

SEASONS

Sport fishing is open year-round (except as noted in the Site Specific Regulations section and for frog season).

SMELT

The sport fishing season for smelt is from March 1 through April 30 (check local seasonal regulations for smelt fishing from Chicago Park District properties). A sport fishing license entitles the angler to take smelt. Waters of Lake Michigan comprise Illinois' smelt fishery. Smelt may be taken with a seine or gill net not more than 12 feet long, 6 feet deep and with mesh size not more than 1 inch diagonal stretch, or by dip net not more than 12 feet in diameter with mesh size not less than 1 inch diagonal stretch. Trolley or power lines may also be used by sport fishermen in taking smelt (see Trot and Trolley Line section). No person shall operate more than one smelt net device at any one time. All fish taken other than smelt must be released immediately.

SNAGGING

Anglers are permitted only one pole and line device to which can be attached no more than two hooks. On the Mississippi River between Illinois and Iowa, the maximum treble hook size is 5/0; gaffs may not be used to land paddlefish.

Species of Fish and Snagging Catch Limit

(1) Only the following species of fish (excluding endangered and threatened species) and catch limit may be taken by snagging:

- Asian Carp (no live possession) - no catch limit,
- Carp - no catch limit,
- Buffalo - no catch limit,
- Freshwater Drum - no catch limit,
- Salmon (coho & chinook only) - 5 daily, of which not more than 3 may be of the same fish species,
- Paddlefish - 2 per day, the maximum length limit for paddlefish taken from the Mississippi River between Illinois and Iowa is 33" eye-fork length (EFL) (all paddlefish greater than or equal to 33" EFL must be immediately released back to the Mississippi River).
- Bowfin - no catch limit,
- Gizzard shad - no catch limit,
- Carpsuckers - no catch limit,
- Longnose gar - no catch limit,
- Shortnose gar - no catch limit, and
- Suckers - no catch limit.

(2) No sorting of snagged salmon and paddlefish is permitted, except for paddlefish taken from the Mississippi River between Illinois and Missouri where sorting is permitted. Every salmon 10 inches in total length or longer and paddlefish snagged must be taken into immedi-

ate possession and included in the daily catch limit. Once the daily limit of salmon or paddlefish has been reached, snagging must cease.

Waters Open to Snagging and Snagging Season

(1) Snagging for fish is permitted from September 15 through December 15 and from March 15 through May 15 within a 300 yard downstream limit below all locks and dams of the Illinois River, except for the area below the Peoria Lock and Dam where snagging is permitted year round.

(2) Snagging for fish is permitted from September 15 through December 15 and from March 15 through May 15 within a 300 yard downstream limit below all locks and dams of the Mississippi River between Illinois and the Missouri, except for the Chain of Rocks low water dam at Chouteau Island - Madison County, also known as Dam 27 at the Chain of Rocks - Madison County where no snagging is permitted. Snagging is permitted from 1/2 hour before sunrise to 1/2 hour after sunset daily, March 1 through April 15 within a 500 yard downstream limit below locks and dams on the Mississippi River between Illinois and Iowa, except the tailwaters of Lock and Dam 12 and 13 are closed to all fishing from December 1 through March 15.

(3) Snagging for fish is permitted year-round within a 100 yard limit upstream or downstream of the dam at Horseshoe Lake in Alexander County.

(4) Snagging for chinook and coho salmon only is permitted from the following Lake Michigan shoreline areas from October 1 through December 31; however, no snagging is allowed at any time within 200 feet of a moored watercraft or as posted:

- Lincoln Park Lagoon from the Fullerton Avenue Bridge to the southern end of the Lagoon,
- Waukegan Harbor (in North Harbor basin only),
- Winnetka Power Plant discharge area,
- Jackson Harbor (Inner and Outer Harbors)

Disposition of Snagged Salmon and Paddlefish

All snagged salmon and paddlefish must be removed from the area from which they are taken and disposed of properly, in accordance with Article 5, Section 5-5 of the Fish and Aquatic Life Code.

SPEARING/BOW AND ARROW FISHING

Carp, carpsuckers, shad, drum, buffalo, sucker, gar (except alligator gar), and bowfin may be taken with spear or gig, pitchfork, underwater spear gun, bow and arrow or archery device. Spearing/bow and arrow fishing is not permitted in waters listed in Site Specific Regulations as "2 Pole and Line Fishing Only" (except as listed by notation).

SPORTFISH

Principal sport fish are the muskellunge, tiger muskie, northern pike, walleye, sauger, largemouth bass, smallmouth bass, spotted bass, warmouth, striped bass, hybrid striped bass, white bass, yellow bass, sunfish bluegill, crappie, trout and salmon. These may be taken only with sport fishing devices by anglers having sport fishing licenses. Other species such as paddlefish, catfish, yellow perch, freshwater drum and carp are considered both sport and commercial fish, and the means of taking

and purposes for which they are taken prescribe the type of license required. Still other species are considered commercial fish, though when taken on sport fishing devices an angler must have a sport fishing license. A fourth category is endangered and threatened aquatic life. (See Endangered and Threatened Aquatic Life).

SPORTFISHING LICENSE

A sport fishing license entitles an angler to take fish, crayfish, turtles or bullfrogs within limits denoted in the Statewide Creel and Size Limits Table, except for endangered and threatened aquatic life. It is unlawful to sell any aquatic life, or parts thereof, taken by a sport fishing license. Aquatic life may be taken by hand or other legal devices permitted by the sport fishing license which includes: pole and line, bank pole and line, dip net throw line, trot line, buoyed device (jug fishing), or other legal devices not exceeding 50 hooks

in total (except as noted under "Ice Fishing" section). Also permitted are legal-sized cast nets, shad scoops and minnow seines for bait fishing. Smelt may be taken in Lake Michigan with legal size dip nets, gill nets and seines. Two untagged sport fishing devices are allowed; each device in excess of two must be tagged with the angler's name and address. If attached to a tree, the device must be attached only to the main trunk below the water line. All unattended devices must be marked with the angler's name and address.

Special fishing regulations at certain water areas prohibit the use of some devices or numbers of devices; please check the Site Specific Regulations which are contained in this document and are posted at various locations at the sites (boat ramps and site offices) where applicable.

STOCKING

Fish may be released into the waters from which they were taken, but permission from the Department of Natural Resources must be secured before releasing fish in other waters, except for private water owners. An owner of a body of water may release fish into waters wholly upon his or her property that are indigenous to the State of Illinois. It is illegal to import or possess live diploid grass carp, silver carp, bighead carp or hybrid grass carp. A Restricted Species Transportation Permit must be secured from the Department of Natural Resources before importing or stocking triploid grass carp.

TAGGED FISH

Fisheries biologists attach tags to many fish for research purposes. Please report all tags found. If the fish is kept, return the tag to the address printed on the tag or the local fisheries office in your area. If a tagged fish is released, the tag should be reported but left in the fish in good condition. Information regarding the type of fish caught, the length and the weight of the fish and the tag number, if present, should also be reported.

Anglers are strongly advised not to tag fish caught on state and/or public waters.

In addition to tags, many trout and salmon stocked into Lake Michigan are marked by clipping off one or two lines. Anglers catching any trout or salmon with only the adipose fin

removed are asked to save the head which contains important information. The adipose fin is the small, fleshy fin found on the backs of trout and salmon between the dorsal fin and the tail. Please record the length and weight of the fish as well as the date and location where caught.

TOURNAMENTS

During fishing contests or events of any type (tournament, fish-off, or derby), the fish taken by the participants must be released into the waters from which they were taken immediately after the weigh-in. This does not prohibit an individual from keeping or transporting his own daily limit.

TOURNAMENT FISHING PERMIT

A fishing tournament permit from the Department of Natural Resources is needed if:

1. Prizes are offered for tagged or marked fish taken from any of the waters listed in the Site Specific Regulations portion of this booklet; or
2. The fishing event is conducted over a period of more than five (5) days during any calendar year, and prizes with a total value in excess of \$1,000 are offered, and where fish are taken from any of the waters covered by the Site Specific Regulations portion of this booklet; or
3. Special exemption to the daily creel and size limits is requested for: (a) catch, hold for weigh-in, and release tournaments for muskies (all waters); (b) black bass catch and release tournaments (Lake Michigan and streams except that the Mississippi, Ohio, and Wabash Rivers are not eligible for permits which exempt participants from daily catch and size limits; (c) special catch and release tournaments for which the proceeds go towards youth education and/or charity type projects; (d) national catch and release tournaments; and (e) special fishing tournaments/events for children under 16, for disabled persons, or for adults over 65.

Requests for a permit will be made on applications provided by the Department of Natural Resources, Division of Fisheries, at least 60 days prior to the first tournament date.

Issuance or denial of a permit shall be based upon the following criteria:

1. The capability of the fishery resource to absorb the tournament with minimal impact to its well-being.
2. The locations of the tournament; catch and release management zones on streams are not eligible for permits.
3. The evaluation of the adverse impacts resulting from the additional fishing pressure generated by the tournament on the fish population and the targeted fish species. The evaluation must demonstrate minimal and short-term impacts in order for the Department of

Natural Resources to issue the permit. Specific items to be considered include:

- a. biological status of the fish population including the species sought;
 - b. length of the tournament;
 - c. number of boats and anglers participating in the tournament;
 - d. for tagged fish tournaments; provisions for obtaining and tagging targeted fish species; and
 - e. safety of anglers and potential boater-user conflicts.
4. Demonstrates adequate provisions for holding, handling, and releasing caught fish. Specific criteria are:
 - a. Tournament officials must be able to certify that all boats must possess a livewell (except muskie fishing tournaments) measuring at least 18" long, 12" deep, and 12" wide and be fitted with a functioning aerator and water pump.
 - b. Following the weigh-in, fish must be released away from the weigh in site and as near to the spot where the catch was made as possible by means of a common release boat or vehicle, or by individual boats.
 - c. If a common release boat or vehicle is utilized, the anglers transporting the fish to be released are exempt from the daily creel limit. A common release boat and holding tank used to transport fish for release shall be adequate to carry a tank constructed of a suitable material (aluminum or fiberglass) with smooth interior walls with no obstructions to trap or injure fish. The tank must be able to hold at least one gallon of water per pound of fish, provide adequate aeration, and maintain constant desirable temperatures to sustain their well-being. The tank must have operating hatches to prevent fish from jumping out of the tank and allow quick opening and closing for introduction and removal of fish. Detailed specification on the design and use of a fish holding tank are available upon request from the IDNR, Division of Fisheries. Individual boats and anglers returning their catches of fish back to a release site must adhere to daily creel limits. Tournament officials must be able to certify that a common release boat is being utilized for this tournament.
 - d. For catch, weigh-in, and release muskie tournaments, all boats must have a fish cradle (made from netting) to temporarily hold the muskie in the water while an official determines the length of weight of the fish prior to release. Muskies may not be transported to a weigh-in-site.
 5. Adequate identification of participants in fishing tournament for law enforcement purposes. Specific criteria include:
 - a. Tournament officials must keep

and have available on site a written record of log of daily participants (including names and boat registration numbers) for inspection by Department of Natural Resources officials.

- b. Each participant and boat must be identified in an easily recognizable manner at a distance (patch on the hat or back). On US Army Corps of Engineers (USACOE) reservoirs (Lake Shelbyville, Carlyle Lake, and Rend Lake) a fishing tournament permit and fee is required from the USACOE Lake office prior to applying for an IDNR Fishing Tournament Permit. For all other State-owned and managed sites you must contact that site to see if a usage permit is required from them.

Failure to acquire a permit as referenced above is a petty offense and will result in denial of future applications for a Fishing Tournament Permit by that applicant, sponsor or group for a period up to 5 years.

TROLLING

Trolling is permissible, provided the angler has not more than three poles and lines with not more than two hooks or lures on each.

TROT AND TROLLEY LINES

Hooks on trot lines, throw lines and similar devices shall be spaced not less than 24 inches apart, except on trolley or power lines used in Lake Michigan. Trot, throw lines and similar devices are unlawful on "2 Pole and Line Fishing Only" areas unless specifically authorized in the Site Specific Regulations section of this booklet

TURTLES

Turtles may not be taken by commercial fishing devices, including hoop nets, traps or seines, or by using firearms, air guns or gas guns. Turtles may be taken only by hand, landing net or by hook and line. Locating turtles by rodding, and then taking by hand is permissible. The daily catch limit is 8 turtles (of each species) per day with a possession limit of 16 of each turtle species.

UNATTENDED DEVICES

Any unattended devices used to catch aquatic life or to hold aquatic life is required to have the angler's name and address clearly displayed on the device.

WATERFOWL BLINDS

No fishing within 250 yds. of an occupied Department owned or managed waterfowl blind. This includes all sites listed and not listed in this regulations booklet.

STATEWIDE SPORTFISHING REGULATIONS

AQUATIC LIFE	STATEWIDE CREEL AND SIZE LIMITS*
Black Bass (Largemouth, Smallmouth & Spotted Bass)	Daily catch limit is 6 bass, either singly or in the aggregate. In rivers and streams (excluding the mainstem of the Mississippi, Ohio, and Wabash Rivers) the daily creel can contain no more than 3 smallmouth bass. In streams and tributaries statewide except for the Mississippi, Ohio, Wabash and Illinois Rivers, all smallmouth bass must be immediately released between April 1 and June 15. There is no statewide size limit.
Tiger and Pure Muskies	1 fish (singly or collectively) daily creel limit; minimum length is 36 inches; refer to the Site Specific Sportfishing Regulations. In some waters the minimum length is 42 or 48 inches for pure muskies.
Northern Pike	3 fish daily creel limit with 24 inches minimum length limit except in the Mississippi and Ohio Rivers (refer to Site Specific Sportfishing Regulations.)
Salmon and Trout in Lake Michigan	5 fish (singly or collectively) daily creel limit; no more than 5 fish of any one species (except for Lake Trout where 2 fish is the daily creel limit); for all species the minimum length limit is 10 inches.
Salmon and Trout outside of Lake Michigan	5 fish (singly or collectively) daily creel limit.
Temperate Bass (Striped, White & Hybrid Striped Bass)	No creel limit for fish less than 17 inches long except for certain waters. The creel limit for fish 17 inches or longer is 3 fish in all waters excluding the Mississippi River bordering Missouri where there is a 30 fish daily creel limit and in the Mississippi River bordering Iowa where there is a 25 fish daily creel limit (refer to site specific regulations).
Walleye, Sauger, and Hybrid Walleye/Sauger	6 fish (singly or collectively) daily creel limit except in the Mississippi River (refer to Site Specific Sportfishing Regulations); minimum length limit is 14 inches (except in the Mississippi River, Ohio River, Wabash River, or as specified under Site Specific Sportfishing Regulations).
Bullfrogs (season June 15 to August 31 both dates inclusive)	8 bullfrogs daily limit with 16 bullfrogs possession limit
Turtles or Frogs	8 turtles or frogs of each species daily catch limit; 16 turtles or frogs of each species possession limit (excludes reptiles or amphibians protected by the Endangered Species Act.)

* The above are statewide sportfish regulations. Specific water areas may have sportfish regulations which differ and are more restrictive. Please check the Site Specific Sportfish Regulations which follow and are posted (at boat launches and at site offices) at each water area where applicable. State Endangered and Threatened Species may not be taken for any purpose.

SITE SPECIFIC SPORTFISHING REGULATIONS

Fishing regulations, including species of fish, fishing methods and daily creel limits are listed for each water area. The numbers in parentheses refer to the corresponding numbered definitions appearing on pages 8 and 9. If a water area is not listed, or if a specific species is not listed, then statewide restrictions apply. Check the bulletin boards at the specific site for any emergency changes to regulations.

The Department of Natural Resources prefers not to limit fishing opportunities unless it's needed to sustain quality fishing or protect the fisheries resources found in a particular water body. Increasing numbers of people participating in fishing, coupled with more sophisticated anglers, are placing enormous pressure on existing fisheries resources in Illinois.

In order to offset intense fishing pressure on Illinois waters, fisheries managers study both fish populations and angler harvest characteristics to identify overharvest problems. If determined necessary, a special regulation to restrict angler harvest may be implemented to improve the structure and abundance of the fish population, which could result in an improvement of quality fishing.

Various special regulations are used by fisheries managers to restrict angler harvest. A **MINIMUM LENGTH LIMIT** means that fish below a designated length must be released immediately. A **SLOT LENGTH LIMIT** means that fish within a designated length range must be released immediately. A **DAILY CREEL LIMIT** means that no more than a maximum number fish may be taken daily. If a daily creel limit

covers more than one fish species, the number of fish permitted to be taken includes all fish species covered by the regulation added together (in aggregate).

A **2 POLE AND LINE FISHING ONLY** regulation permits the angler to take fish with no more than 2 poles with no more than 2 hooks or lures per line. Also permitted (unless otherwise noted) are legal-sized cast nets, shad scoops and minnow seines for bait fishing. Bullfrogs may be taken by hand, gig, pitchfork, spear, landing net, and hook and line during bullfrog season.

ON WATERS WITHOUT THE 2 POLES AND LINES FISHING ONLY restriction, up to 50 hooks in total may be used legally on devices permitted under a sport fishing license. Legal devices include: bank poles and lines, dip nets, throw lines, trot lines, buoyed devices (jug fishing), gigs, spears, bow and arrow, and bow and arrow devices. No more than two untagged sport fishing devices (no more than 50 hooks total) under the angler's immediate control are allowed. Each legal device more than two, up to 50 hooks total, must be tagged with the angler's name and address. If attached to a tree, the device must be attached to the main trunk below the water line.

A **CLOSED SEASON** means that fish may not be taken between the specified dates. Waters receiving catchable rainbow trout have closed seasons (spring and/or fall). A closed season prohibiting harvest of rainbow trout is necessary in order for the State to have the trout stocked and permit all anglers to have an equal opportunity to harvest fish on "opening day."

SITE SPECIFIC SPORTFISHING REGULATIONS

Site Specific Sport Fishing Regulations are listed by water area affected. The coverage of the regulation is dictated by the extent of the water area listed and not by the county. In some cases, regulations for a given water area or site may extend beyond the county(ies) listed.

The county(ies) listed refer to the location of the dam or outfall for impoundments or mouths of small streams. Since large rivers or streams usually flow through many counties, the term "Multiple" is used rather than listing all counties where the large stream or river flows.

The subsections listed below are referred to by number in the Site Specific Regulations.

Water areas identified may have numbers contained in parentheses which refer to definitions listed below. At no time may endangered and threatened species be taken for any purpose.

- 1) Anglers must not use more than 2 poles and each pole must not have more than 2 hooks or lures attached while fishing, except that legal size cast nets, (in accordance with subsection 810.50(a)(1)) shad scoops, and minnow seines may be used to obtain shad, minnows, and crayfish to use as bait, provided that they are not sold, and except that bullfrogs may be taken by hand, gig, pitchfork, spear, landing net, and hook and line during bullfrog season.
- 2) All jugs set in a body of water shall be under the immediate supervision of the fisherman. Immediate supervision shall be defined as the fisherman being on the water, where the jugs are set, to be readily available to identify jugs to law enforcement officers empowered to enforce this code.
- 3) All largemouth and smallmouth bass taken must be less than 12 inches in total length or greater than 15 inches in total length.
- 4) Except that sport fishermen shall be allowed to use trotlines, jugs, and by hand, except that the use and aid of underwater breathing devices is prohibited. West of Wolf Creek Road, fishing from boats is permitted all year. Trotlines/jugs must be removed from sunrise until sunset from Memorial Day through Labor Day. East of Wolf Creek Road, fishing from boats is permitted from March 15 through September 30. Fishing from the bank is permitted all year only at the Wolf Creek and Route 148 causeways. On the entire lake, jugs and trotlines must be checked daily and must be removed on the last day they are used. It is illegal to use stakes to anchor any trotlines; they must be anchored only with portable weights and must be removed on the last day they are used. The taking of carp, buffalo, gar, bowfin, and suckers with bow and arrow is permissible.
- 5) Except that sport fishermen may take carp, carpsuckers, buffalo, gar, bowfin and suckers by pitchfork, gigs, bow and arrow or bow and arrow devices.
- 6) Including the Fox River south of the Illinois-Wisconsin line to the Algonquin Dam and the Nippersink Creek upstream to the Wilmot Road Bridge.
- 7) Except that sport fishermen may take carp, buffalo, suckers and gar by bow and arrow or bow and arrow devices, gigs or spears during May and June.
- 8) Daily catch limit includes striped bass, white bass, yellow bass and hybrid striped bass either singly or in the aggregate.
- 9) Catch and Release Fishing Only means that fish (all or identified species) caught must be immediately released alive and in good condition back into the water from which it came.
- 10) It shall be illegal to possess trout during the period of October 1 to 5 a.m. on the third Saturday in October (both dates inclusive) which were taken during that period.
- 11) It shall be illegal to possess trout during the period of March 15 to 5 a.m. on the 1st Saturday in April (both dates inclusive) which were taken during that period.
- 12) Daily catch limit for largemouth or smallmouth bass, singly or in the aggregate, shall not exceed 6 fish per day, no more than one of which shall be greater than 15 inches in length and none of which shall be greater than 12 inches and less than or equal to 15 inches in length.
- 13) Except that jug fishing is permitted from the hours of sunset to sunrise, and except that carp and buffalo may be taken by bow and arrow devices from May 1 through September 30. All jugs must have owner's/user's name and complete address affixed.
- 14) Daily catch limit includes all fish species (either singly or in the aggregate) caught within each of the following fish groupings.
 - 1) Largemouth or Smallmouth Bass
 - 2) Walleye, Sauger, or their hybrid
 - 3) Bluegill, Redear Sunfish, or Pumpkinseed
 - 4) Channel or Blue Catfish
- 15) Daily catch limit includes white, black, or hybrid crappie either singly or in the aggregate.
- 16) Daily catch limit includes striped bass, white bass and hybrid striped bass either singly or in the aggregate.
- 17) Daily catch limit shall not exceed 10 fish daily, no more than 3 of which may be 17 inches or longer in length.
- 18) Except that sport fishermen shall be allowed to use trotlines, jugs and bank poles in the portions of the lake that lie north of the Davenport Bridge and northeast of the Parnell Bridge. Sport fishermen may take carp, carpsuckers and buffalo by bow and arrow, bow and arrow devices, gigs and spears on the entire lake, but not within 200 yards of any developed recreation areas.
- 19) It shall be unlawful to enter upon a designated duck hunting area between sunset of the Sunday immediately proceeding opening day of regular duck season through the day before regular duck season and Canada goose season as posted at the site, or to fish on such areas during the regular duck season except in areas posted as open to fishing. It shall be unlawful to enter upon areas designated as waterfowl rest areas or refuges from 2 weeks prior to the start of the regular duck season through the end of duck and Canada goose season.
- 20) Carlyle Lake (including its tributary streams and those portions of the Kaskaskia River and Hurricane Creek up to the U.S. Army Corps of Engineers Carlyle Lake Project boundaries), U.S. Army Corps of Engineers, Bond, Clinton, and Fayette Counties. Does not include the tailwaters, except that sport fishermen may not use a minnow seine, cast net, or shad scoop for bait collecting between U.S. Route 50 and the Carlyle Lake dam and spillway.
- 21) Lake Shelbyville (including its tributary streams and those portions of the West Okaw and Kaskaskia Rivers up to Lake Shelbyville Project boundaries — including parts of the Lake Shelbyville Fish and Wildlife Management Area), U.S. Army Corps of Engineers, Shelby and Moultrie Counties. Does not include tailwater, except for the 48" total length and live bait rig requirement for muskellunge (see 42 & 45).
- 22) Rend Lake (including its tributary streams and those portions of the Big Muddy and Casey Fork Rivers up to the Rend Lake Project boundaries), Rend Lake Project Ponds, U.S. Army Corps of Engineers, Franklin and Jefferson Counties. Does not include tailwaters, except that sport fishermen may not use a minnow seine, cast net, or shad scoop for bait collecting within 1,000 yards downstream of the Rend Lake dam and spillway.

SITE SPECIFIC SPORTFISHING REGULATIONS

- 23) Daily catch limit for black, white or hybrid crappies, singly or in the aggregate, shall not exceed 20 fish daily, no more than 10 of which can be below 10 inches in total length and no more than 10 of which can be 10 inches or longer in total length.
- 24) 15" minimum length limit for walleye with no possession of walleye greater than or equal to 20" and less than or equal to 27" in total length – protected slot length limit.
- 25) Daily catch limit for largemouth or smallmouth bass, singly or in the aggregate, shall not exceed 3 fish per day, no more than one of which may be equal to or greater than 15 inches in total length and no more than 2 of which may be less than 15 inches in total length.
- 26) Lake Vermilion - Trotline and jug fishing allowed north of Boiling Springs Road.
- 27) Except that bank fishing is prohibited. Boat fishing is permitted May 1 through August 31 during the hours of 2:00 p.m. to 8:00 p.m. See site for additional regulations and exact opening and closing dates.
- 28) Except that trotlines may be set within 300 feet from shore.
- 29) Except that carp, buffalo, suckers and carpsuckers may be taken by means of pitchfork and gigs (no bow and arrow devices).
- 30) Fishing is permitted from March 15 through September 30, both dates inclusive, from sunrise to sunset. Fishing during all other times of the year is illegal and not permitted.
- 31) Daily catch limit for largemouth or smallmouth bass, singly or in the aggregate, shall not exceed 3 fish daily, no more than one of which may be equal to or greater than 15 inches in total length and no more than 2 of which may be less than 12 inches in total length.
- 32) Daily catch limit includes striped bass, white bass, yellow bass and hybrid striped bass, either singly or in the aggregate, no more than 4 of which may be 15 inches or longer in length.
- 33) It shall be unlawful to trespass upon a designated waterfowl hunting area during the 7 days prior to the regular duck season, or to fish on such areas during the regular duck and Canada goose season except in areas posted as open to fishing. It shall be unlawful to trespass upon areas designated as waterfowl rest areas or refuges from 2 weeks prior to the start of the regular duck season through the end of duck and Canada goose season.
- 34) Refers to meandered waters only. All boat traffic is prohibited from operating on meandered waters (except non-motorized boats may be used to assist in the retrieval of waterfowl shot from private land) from the period from one week before waterfowl season opens until the season closes. Hunting and/or any other activity is prohibited during the period from one week before waterfowl season opens until the season closes.
- 35) Posted waterfowl refuge is closed to all boat traffic during the waterfowl season. Bank fishing along the dam shall be permitted. Fishing shall be prohibited in the east and west arm of the lake during the period from 10 days prior to the duck season through the end of the duck season. Fishing shall be prohibited in the west arm of the lake and the east arm of the lake south of the power lines during that portion of the Canada goose season that follows the duck season.
- 36) Except that sport fishermen may take carp, buffalo, suckers and gar by bow and arrow or bow and arrow devices, gigs, or spears from May 1 through August 31.
- 37) Daily catch limit for walleye, sauger, or hybrid walleye, singly or in the aggregate shall not exceed 3 fish greater than or equal to 14 inches and less than 18 inches in total length and/or 1 fish greater than 24 inches in total length daily creel limit.
- 38) Except that sport fishermen may not use a minnow seine, minnow trap, cast net, or shad scoop for bait collecting in the following water areas: Charleston Lower Channel Lake tailwaters from that portion of the Embarras River from the Charleston Lower Channel Lake Dam downstream to the Route 130 Bridge; Clinton Lake tailwaters from that portion of Salt Creek from the Clinton Dam downstream to the Route 10 Bridge. Cook County Forest Preserve District waters (except in the Des Plaines River); Lake Decatur tailwaters from that portion of the Sangamon River from the Lake Decatur Dam downstream to the Route 48 Bridge.
- 39) All smallmouth bass taken must be less than 12 inches in total length or greater than 18 inches in total length. Only 1 bass greater than 18 inches and 2 bass less than 12 inches may be taken in the creel daily.
- 40) All largemouth and smallmouth bass taken must be less than 14 inches in total length or greater than 18 inches in total length. Only 1 bass greater than 18 inches and 5 bass less than 14 inches may be taken in the creel daily.
- 41) Powerton Lake shall be closed to boat traffic, except for legal waterfowl hunters, from one week prior to regular waterfowl season to February 15, and closed to all unauthorized entry during the regular goose and duck season.
- 42) The 48" total length limit on pure muskellunge applies to that body of water listed as well as any tailwaters as defined below:

Evergreen Lake (McLean County) - including the portion of Six Mile Creek below the Evergreen Lake Dam downstream to its confluence with the Mackinaw River.

Forbes State Lake (Marion County) - including tailwaters

Fox Chain O'Lakes (Lake/McHenry Counties) - including the Fox River south of the Wisconsin-Illinois boundary to the Algonquin Dam and the Nippersink Creek upstream to the Wilmot Road Bridge.

Kinkaid Lake (Jackson County) - including the portion of Kinkaid Creek below the Kinkaid Lake Dam downstream to the Route 149 Bridge.

Lake Shelbyville (Moultrie/Shelby Counties) - including the portion of the Kaskaskia River below the Lake Shelbyville Dam downstream to the State Route 128 Road Bridge near Cowden.

Lake Vermilion (Vermilion County) - including the portion of the North Fork of the Vermilion River below the Lake Vermilion Dam downstream to its confluence with the Vermilion River.

Otter Lake (Macoupin County) - including the portion of the Otter Creek below Otter Lake Dam downstream to its confluence with East Otter Creek.

Pierce Lake (Winnebago County) - including the portion of Willow Creek below the Pierce Lake Dam downstream to Forest Hills Road.

Shabbona Lake (DeKalb County) - including that portion of Indian Creek below the Shabbona Lake Dam downstream to Shabbona Grove Road.

Spring Lakes (North & South)(Tazewell County) - no tailwaters.
- 43) During duck season, walk-in access for fishing from the bank is permitted after 1:00 p.m.
- 44) It shall be unlawful to enter upon areas designated as waterfowl hunting areas during the 10 days prior to the start of the regular duck season, or to fish in such areas during the regular duck season except in areas posted as open to fishing. It shall be unlawful to enter upon areas designated as waterfowl rest areas or refuges from 10 days prior to the start of the regular duck season through the end of duck and Canada goose season.
- 45) When using live bait, all live bait in excess of 8 inches in total length shall be rigged with a quick set rig. The hook shall be immediately set upon the strike. A quick set rig is defined as follows: a live bait rig with up to 2 treble hooks attached anywhere on the live bait, single hooks prohibited. This rule does not apply to trotlines, jug lines, etc., if allowed on the lake.
- 46) Except that sportfishermen may take carp from boat by bow and arrow and bow and arrow devices, but not within 100 feet of any developed recreation areas.
- 47) Except that sport fishermen may take carp, buffalo, suckers, and gar by bow and arrow devices, gigs or spears (except during waterfowl season) but not within 200 yards of any developed recreational areas.
- 48) All large or smallmouth bass taken must be less than 12 inches in total length or greater than 18 inches in total length. Only 1 bass greater than 18 inches and 2 bass less than 12 inches may be taken in the creel daily.
- 49) 14" Minimum length limit for walleye, sauger or hybrid walleye with a protected slot (no possession) of fish 18" to 26" in total length. There is a 3 fish daily creel of which only 1 can be greater than 26".

SITE SPECIFIC SPORTFISHING REGULATIONS

Statewide Sportfishing Regulations are enforced in addition to each area's Site Specific Regulations

DON'T TAKE AN ALLIGATOR SNAPPING TURTLE!
ALLIGATOR SNAPPING TURTLES ARE A STATE ENDANGERED SPECIES AND FULLY PROTECTED BY LAW

The State of Illinois is reintroducing the native alligator snapping turtle to strategic watersheds in Illinois.

You can help recover this unique reptile by:

- Learning the difference between common snapping turtles and alligator snappers.
- Reporting observations of alligator snapping turtles. [PLEASE SEND PHOTOS]
- Protecting river corridors and associated wetland habitat.
- Reporting any illegal capture, take or possession of alligator snapping turtles.

Alligator: 3 rows of prominent, pyramidshaped projections on shell; large head; pronounced beak; worm-like lure on tongue. May NOT be taken in Illinois.

Common: Smooth shell with moderate projections; Long neck and tail with sawtooth projections. These turtles may legally be taken with an Illinois fishing license. The daily catch limit is 8 turtles and possession limit is 16.

HELPING OTHERS

The Illinois Conservation Foundation has played a significant role in raising funds for many important causes.

It is a sponsor of the Illinois Sportsman Against Hunger program; helping nourish those in need.

The Illinois Conservation Foundation (ICF) has purchased equipment for the Conservation Police Search & Rescue Squad and vehicles for the Illinois Department of Natural Resources' wildlife staff. It has helped forge reforestation agreements with Illinois corporations resulting in equipment purchases to help plant millions of trees.

The ICF built the state's first artificial reef, an 800 foot long granite rubble structure in Lake Michigan. The reef provides a habitat for smallmouth bass and other near-shore species. The list of achievements is long and includes enhancing habitats for the endangered Illinois mud turtle and Indiana bat, and reintroducing the river otter into Illinois waterways.

YOU CAN HELP

I want to help preserve the present and guarantee the future of Illinois' natural resources.

Catchable

Trout Program

The Illinois Department of Natural Resources reinstated its Catchable Trout Program in 1994. Various lakes and streams are annually stocked with catchable size (10-11 inches) trout in the spring or fall. Anglers are prohibited from taking (harvesting) trout at any of the stocking sites before the legal opening. **Spring catchable trout season opens at 5 a.m. on April 3, 2010 while fall season opens at 5 a.m. on Oct. 16, 2010.**

To legally take (harvest) rainbow and/or brown trout from any waters which receive catchable trout or hatchery stockings of trout, anglers must have a fishing license and inland trout stamp, unless they are under 16 years of age, blind or disabled, or Illinois residents on leave from the Armed Forces. A daily limit of five trout per angler is enforced.

Fishing licenses and inland trout stamps are available at sporting good stores and other vendors located near the catchable trout fishing sites, and at the IDNR's five regional offices at Sterling, Bartlett, Clinton, Alton, and Benton.

Individuals wanting more information about the catchable trout program can contact the Department of Natural Resources, Division of Fisheries, One Natural Resources Way, Springfield, IL 62702-1271; phone 217/782-6424, TDD 217/782-9175. **Anglers wanting more information about site regulations, access areas or boat rentals should contact individual sites and the "I Fish Illinois" website: <http://www.ifishillinois.org>.**

HOW TO CLEAN AND PREPARE FISH FOR CONSUMPTION

Once an angler has decided to keep a fish for consumption purposes, the fish must be cleaned and stored on ice as soon as possible. Currently, Illinois sportfishing regulations prohibit the removal of the head or tail or cleaning of the fish to which length limits apply, while still on the waters where the length limits are enforced.

Fish tastes best when cleaned and cooked within two hours after catching it. Fish must be stored in the coolest conditions possible (on ice) and eaten within a day or two. Different types of fish may be cleaned according to one of the methods described at right.

If the angler plans to eat the fish at a later date, the cleaned fish must be frozen. If prepared for freezing properly, whole fish (skin on) may be kept for up to 6 months. Fish fillets (skin off) may be kept for up to 3 months. Frozen fish should be thawed in the refrigerator to prevent bacterial problems from occurring.

THREE BASIC CUTS OF FISH

Dressed or pan-dressed whole fish. Scaled, drawn with head, tail and fins removed.

Steaked
Cross-sectional slices are cut from larger fish.

Filleted
Sides of fish are cut lengthwise along backbone.

SPECIAL PREPARATION OF CARP, SUCKERS, AND BUFFALO

Carp, suckers and buffalo are excellent food fish when prepared properly. Many anglers avoid eating these species because they have fine "y" bones similar to those found in Northern Pike. These fish can be filleted and fried the same as fish without the "y" bones with the addition of one step in the cleaning process. The step is called scoring. Scoring is simply cutting through the fine "y" bones. The bones are softened by the hot grease and are undetectable.

To prepare the scored fillets:

- Cut the scales from the fish with a knife starting at the tail with a sawing action. This removes the scales but leaves the skin on the fillet.
- Remove the fillets from both sides of the fish as you would with other species but do not skin the fillets.
- Score the fillet by cutting across the fillet from the flesh side down to but not through the skin on the bottom side. Cuts should be 1/4 inch apart. (The skin holds the scored fillet together.)
- Scored fillets can be dipped in batter or rolled in a dry coating and fried by placing the flesh side down into the grease first. This causes the scored flesh to separate slightly and exposes the fine bones to the hot grease.

ILLINOIS SPORT FISHING AWARDS PROGRAM

The Division of Fisheries offers several angler recognition awards for fish caught in Illinois waters. Junior angler awards are for young anglers under 16 years of age catching their first Illinois fish. Catch and Release, Big Fish, Master Angler, Grand Slam, and State Record are available to any angler meeting the eligibility requirements outlined in the rules. Refer to the rules section for more information.

New this year and available on the www.ifishillinois.org website, Jr. Angler, Catch & Release, and Big Fish certificates may be downloaded and printed from your personal computer. Completed applications with associated information for Master Angler, Grand Slam, and State Record must be sent to the Division of Fisheries for processing. Awards are returned to the angler at the end of the current fishing season.

APPLICATIONS MAY BE OBTAINED AT
ANY DNR REGIONAL OFFICE OR BY CALLING 217/782-6424
OR BY DOWNLOADING FROM THE www.ifishillinois.org WEBSITE

SPORT FISHING AWARDS (see RULES SECTION for further information)

- A **STATE RECORD AWARD** patch, engraved wall plaque, and certificate will be awarded to the angler who catches a fish, only of the species listed above, which equals or exceeds the weight of the current STATE RECORD. All STATE RECORD fish must be certified by a DNR fisheries biologist. Applications for the STATE RECORD award are available to download from the www.ifishillinois.org website. Completed applications, DNR certification, and a photo documenting your catch must be mailed into the DNR Division of Fisheries.
- A **GRAND SLAM AWARD** certificate, pin, and patch are awarded annually to anglers catching at least one representative fish (which meets or exceeds the minimum lengths or minimum weights – see eligible fish species table) from five (5) of the six (6) family categories of Illinois fish (Catfish, Black Bass, Temperate Bass, Esocid, Salmonid, and Perch). Applications for the GRAND SLAM award are available to download from the www.ifishillinois.org website and mail (along with a photo of each catch for documentation) into the DNR Division of Fisheries no later than January 30.
- A **MASTER ANGLER AWARD** certificate and pin are awarded annually to anglers catching five (5) different species of fish (see listing of eligible fish) which meet or exceed the minimum lengths or minimum weights. Applications for the MASTER ANGLER award are available to download from the www.ifishillinois.org website. Once completed, the application must be mailed into the DNR Division of Fisheries no later than January 30.
- A **BIG FISH AWARD** certificate will be awarded to the angler who catches and keeps a fish, only of the species listed above, which equals or exceeds the minimum qualifying weight. Applications for the BIG FISH award are available from the www.ifishillinois.org website. Certificates for successful anglers may be printed directly from the website.
- A **CATCH AND RELEASE AWARD** certificate will be awarded to the angler who catches and releases an eligible fish (see list), which equals or exceeds the minimum qualifying length. Award certificates for successful anglers may be printed directly from the www.ifishillinois.org website.
- A **JUNIOR ANGLER AWARD** certificate is available for download from the www.ifishillinois.org website to an angler under 16 years of age who catches their first Illinois fish. Award certificates for successful anglers may be printed directly from the website.

Further information and requirements for each award is provided in the "RULES SECTION".

ELIGIBLE FISH SPECIES TABLE

Fish Species (Minimum Requirements)	BIG CATCH & FISH RELEASE (LBS.) (INS.)	Fish Species (Minimum Requirements)	BIG CATCH & FISH RELEASE (LBS.) (INS.)
Largemouth bass	6 . . . 19	Yellow bullhead	2 . . . 12
Smallmouth bass	3 . . . 16	Brown bullhead	2 . . . 12
Spotted bass	3 . . . 16	Coho salmon	10 . . . 25
White bass	2 . . . 15	Chinook salmon	18 . . . 34
Yellow bass	1 . . . 11	Pink salmon	2 . . . 15
Striped bass	12 . . . 28	Atlantic salmon	9 . . . 25
Hybrid striped bass	7 . . . 20	Lake trout	15 . . . 27
Northern pike	13 . . . 30	Brown trout	15 . . . 27
Muskellunge	15 . . . 36	Rainbow trout	12 . . . 30
Tiger muskie	13 . . . 30	Brook trout	2 . . . 15
Walleye	5 . . . 22	Tiger trout	3 . . . 19
Sauger	3 . . . 18	Common carp	15 . . . 32
Saugeye (hybrid)	3 . . . 18	*Bighead carp	15 . . . 32
Yellow perch	1 . . . 12	Bowfin	6 . . . 24
Bluegill	1 . . . 10	Freshwater drum	10 . . . 24
Redear sunfish	1 . . . 10	Bigmouth buffalo	15 . . . 25
Green sunfish	1 . . . 10	Black buffalo	15 . . . 25
Rock bass	1 . . . 9	Smallmouth buffalo	15 . . . 25
Warmouth	1 . . . 9	Shovelnose sturgeon	2 . . . 24
Other sunfish	1 . . . 10	Longnose gar	5 . . . 32
Hybrid sunfish	1 . . . 10	Shortnose gar	5 . . . 30
White crappie	2 . . . 13	Spotted gar	5 . . . 30
Black crappie	2 . . . 13	Grass carp (white amur)	15 . . . 27
Hybrid crappie	2 . . . 13	Goldeye	1 . . . 12
Channel catfish	14 . . . 28	Mooneye	1 . . . 12
Blue catfish	20 . . . 30	Skipjack herring	1 . . . 12
Flathead catfish	20 . . . 30	Burbot	5 . . . 22
Black bullhead	2 . . . 12		

* may not be possessed alive

RULES FOR SPORT FISHING AWARDS

These rules apply to STATE RECORD, GRAND SLAM, MASTER ANGLER, BIG FISH, CATCH AND RELEASE, AND JUNIOR ANGLER award entries:

- Fish must be caught legally by pole and line from Illinois waters. Fish caught by trot line, jugs, bank poles, gigs, spears, bow and arrow, nets, seines, and snagging are not eligible.
- Fish caught from Licensed Daily Fee Fishing Areas are not eligible.
- Total length is to be measured from the tip of the snout, with mouth closed to the tip of the tail to the nearest 1/8 inch. Girth is measured at the greatest distance around the fish circumference).
- The Illinois Department of Natural Resources reserves the right to reject an entry based upon its investigation on the identification, methods used in catching, and the accuracy of measurement and weighing.
- Fish eligible for all SPORT FISHING AWARDS (excluding the GRAND SLAM AWARD) are listed in the "Eligible Fish Species Table" along with qualifying minimum lengths and weights.
- Fish species eligible for the GRAND SLAM AWARD by family category include:

Catfish	Blue Catfish, Channel Catfish, and Flathead Catfish
Black Bass	Largemouth Bass, Smallmouth Bass, and Kentucky Spotted Bass
Temperate Bass	Striped Bass, Hybrid Striped Bass, and White Bass
Esocid	Muskie and Northern Pike
Salmonid	Coho Salmon, Chinook Salmon, and Rainbow Trout (Steelhead)
Perch	Walleye and Sauger

Anglers catching at least one eligible fish species from five (5) of the six (6) above family categories meeting or exceeding the qualifying minimum lengths or weights must complete an application (along with a photo documenting the catch) and mail the entry to the Illinois Department of Natural Resources, no later than January 30 to cover the previous calendar year's fishing activities.

- Fish species eligible for the MASTER ANGLER AWARD include all listed fish species (see the "Eligible Fish Species Table") which meet or exceed the qualifying minimum lengths or weights. Successful anglers must complete an application (along with a photo documenting the catch) and mail the entry to the Illinois Department of Natural Resources, no later than January 30 to cover the previous calendar year's fishing activities.
- Each STATE RECORD, GRAND SLAM, AND MASTER ANGLER award application must be accompanied by a clear, side-view photograph for each of the fish caught, preferably of the angler with the fish. The entry and photograph become property of the Illinois Department of Natural Resources. Photos cannot be returned.
- Fish entered for a STATE RECORD award must be weighed on a scale certified legal for trade in front of two witnesses.
- A fish entered for STATE RECORD fish must be kept intact until it has been certified, and when necessary, genetically confirmed by an Illinois Department of Natural Resources Fishery Biologist.
- The Illinois Department of Natural Resources reserves the right to reproduce, duplicate, or otherwise copy, via a body cast, any certified STATE RECORD fish. Duplicate mounts will be used solely by the Department for display purposes and will acknowledge the record holder.

The Illinois Department of Natural Resources is requesting this information as outlined under the Fish Code, Chapter 515. This information is required in order for you to qualify for a STATE RECORD, GRAND SLAM, OR MASTER ANGLER award.

ILLINOIS FISHING PROSPECTS

WATER AREA	LOCATION	BEST TIMES TO FISH	WEIGHT (LBS.)	AREAS TO FISH
------------	----------	--------------------	---------------	---------------

Blue Catfish (best baits - crayfish, shrimp, large shad, stinkbait)

Baldwin Lake - 2,018 acres	Randolph Co., 3 mi. N of Baldwin	Oct. - May	30 to 60	Deep holes
Mississippi River,				
Lock & Dam 24 to Cairo	Calhoun to Alexander Co.	July - Sept.	2 to 5	Shoreline on bottom & below dam, rip-rap, side chutes
Ohio River	Pope, Hardin, Gallatin Cos.	June - Sept.	2 to 5	Around brush & riffles
Powerton Lake - 1,426 acres	Tazwell Co. - Pekin	April - May	1 to 7	Warm water discharge
Wabash River	Wabash, Lawrence, White & Gallatin Cos.	June - Sept.	2 to 5	Around brush & riffles

Bluegill (best baits - worms, crickets, night crawlers)

Baldwin Lake - 2,018 acres	Randolph co., 3 mi. N of Baldwin.	Dec. - May	1/4	North bank
Beaver Dam Lake - 57 acres	Macoupin Co., 6 mi. SW of Carlinville.	May - Oct.	1/4	Shoreline & fish cribs
Borah Lake	Richland Co., 1 mi. N of Olney.	Spring - Fall	1/3	Shoreline & weed beds
Braidwood Lake - 2,308 acres	Will Co. near Braidwood.	April - Oct.	1/4	Rip rap areas
Busse Lake - 590 acres	Cook Co., S. of Higgins & I 290.	Sept. - Oct.	1/3	Near rip-rap & dams
Fox Chain O'Lakes - 7,110 acres	Lake & McHenry Cos.	Spring-Fall, ice.	1/3	Best lakes: Catherine, Marie, Bluff, Petite. Fish weed beds & edges, piers, brush & snags
Crab Orchard Lake - 6,965 acres	Williamson Co., 3 mi. E of Carbondale	May - June	1/4	Stumps, brush & spawn beds
Dawson Lake - 158 acres	McLean Co., 4 mi. N of LeRoy.	May - Sept.	1/4 to 1/3	Weed beds & backs of coves
Devil's Kitchen - 810 acres	Williamson Co., 8 mi. SE of Carbondale	May - June	1/4 to 1/2	Spawn beds
Dutchman Lake - 118 acres	Johnson Co., 3 mi. SE of Goreville.	April - May	1/4	Spawn beds
Frank Holten Lakes - 80 & 97 acres	St. Clair Co., E St. Louis	May - June	1/4	Shoreline
Greenville New City Lake - 775 acres	Bond Co., 1 mi, NE of Greenville.	May - Oct.	1/3	Shoreline
Hennepin Canal - 926 acres	Bureau, Henry & Whiteside Cos.	May - June	1/3	Shoreline
Hennepin-Hopper Lake - 1,200 acres	Putnam Co., 2 mi. S of Hennepin	May	1/3 to 1	Brushy areas
Lake Bloomington - 635 acres	McLean Co., 10 mi. N of Bloomington	May - Aug.	1/4 to 1/2	Shoreline, weed beds, spawn beds
Lake Carlton - 77 acres	Whiteside Co., 2 mi. N of Morrison	April, Sept. - Nov.	1/4 to 1/3	Weed beds & brush
Lake Mingo - 170 acres	Vermilion Co., 4 mi. N of Danville.	June - Sept, ice.	1/4 to 1/3	Standing timber, weed beds & brush
LaSalle Lake - 2,035 acres	LaSalle Co.	April - May	1/3	Shoreline
Lincoln Trail Lake - 146 acres	Clark Co., 2 mi. S of Marshall	May - Sept.	1/4 to 1/2	Brush & edge of weed beds
Little Grassy Lake - 1,000 acres	Williamson Co., 7 mi. SE of Carbondale	May - June	1/4	Spawn beds & weed edges
Mazonia FWA - 576 acres	Grundy & Kankakee Cos., 2 mi. W of Braceville	Spring-Fall, ice.	1/3	Best Lakes #3, #10, Ponderosa
McCullom Lake - 245 acres	McHenry Co., in McHenry	May - Sept, ice.	1/3	Anywhere in lake
Mermet Lake - 452 acres	Massac Co., 1 mi. W of Mermet	May - June	1/4 to 1/2	Around brush and stumps
Mississippi River - Pool 12,				
Frentress Lake	Jo Daviess Co., 2 mi. S of E Dubuque	June - Sept.	1/4	Brush piles along shoreline
Mississippi River - Pool 19,				
Burlington Island R.M. - 339.5 mi.	Henderson Co., Shokokon, Illinois	May - June, Sept.	1/4	Shoreline cover
Ramsey Lake - 56 acres	Fayette County, 3 mi. N of Ramsey	May - June	1/3 to 1/2	Spawn beds
Red Hills Lake - 40 acres	Lawrence Co., 10 mi. E of Olney	April - Oct.	1/3 to 1/2	Shoreline
Rend Lake - 18,900 acres	Franklin & Jefferson Co., 3 mi E of Sesser.	April - Oct.	1/4	Brush & timber, Nason Point, Big Muddy & Casey Fork Arms
Sam Dale Lake - 194 acres	Wayne Co., 1 mi. W of Johnsonville.	April - Oct.	1/3	Shoreline & stickups
Sam Parr Lake - 180 acres	Jasper Co., 2-1/2 mi. NE of Newton.	April & Oct.	1/4	Stickups, bays & spawn beds
Shabbona Lake - 318 acres	DeKalb Co., 2 mi. S of Shabbona	May - Sept.	1/3	Brush & weed beds
Siloam Springs - 58 acres	Adams Co., 3 mi. SW of Kellerville.	May - June	1/3 to 1/2	Back of small coves
Smithland Pool/Ohio River - Tributaries	Hardin & Pope Cos.	May - June	1/3	Shoreline
Sugar Creek Lake - 96 acres	Pope Co., 2 mi. NW of Dixon Springs	April - Oct.	1/3	Fallen trees & stumps
Tampier Lake - 160 acres	Cook Co., 131st & Wolf Rd.	May - June	1/4	N. of 131st Street
Weldon Springs Lake - 29.4 acres	DeWitt Co., 2 mi. E of Clinton	June - Aug.	1/4 to 1/3	Weed beds & Christmas trees
Wolf Lake - 391 acres	Cook Co., in Chicago	May - Sept.	1/4	Anywhere in lake

Bullheads (best baits - worms, crayfish, night crawlers, cut bait)

Anderson Lake - 1,364 acres	Fulton Co., 8 mi. SW of Havana	April - June	1/2	Shoreline
Lake Le-Aqua-Na - 43 acres	Stephenson Co., 3 mi. N or Lena	June - Sept.	3/4	Shoreline
Levings Lake - 24 acres	Winnebago Co., SW Rockford	May - Sept.	1/2	Shoreline
Mill Creek Lake - 811 acres	Clark Co., 5 mi. W of Marshall.	May - Sept.	1/2 to 1 1/4.	Shallow areas
Olson Lake - 45 acres	Winnebago Co., 2 mi W of Caledonia.	May - Sept.	1	Upper end
Peabody River King - 526 acres	St. Clair Co., 1 mi. E of New Athens.	May - Sept.	1/2 to 1	Eagle, Levee Island & Goose Lakes
Pierce Lake - 162 acres	Winnebago Co., 2 mi. W of Caledonia	May - Sept.	1/2 to 1	Shallow bays
Rice Lake - 1,383 acres	Fulton Co., 4 mi. S of Banner	April - June	3/4	Shoreline
Shabbona Lake - 319 acres	DeKalb Co., 2 mi. S of Shabbona	May - Aug.	1/2 to 2	Shallow bays
Skokie Lagoons - 226 acres	Cook Co., Willow Rd at I-94.	June - Sept	1/2	Anywhere in lake
Spring Lake North - 578 acres	Tazewell Co., 12 mi. SW of Pekin	June - Aug.	2/3	Around S shore
Spring Lake South - 610 acres	Tazewell Co., 12 mi. SW of Pekin	April - Sept.	1	Along turnouts of W shore

ILLINOIS FISHING PROSPECTS

ILLINOIS ICE FISHING REGULATIONS

A sport fishing license is required for ice fishing. The ice angler may use a maximum of three poles or tip-ups with no more than two hooks on each line. Sites with two pole and line fishing only restriction may use a maximum of two poles or tip-ups. Holes cut in the ice are limited to 12-inch diameter or less. Shelter structures are limited to portable construction of metal or wood framework, covered with canvas, paper, plastic material or similar fabric. Each shelter shall have the name and address of the owner attached, and after March 1 the shelter must be removed when not in use, and not left unattended at any time. All poles and tip-ups shall be constantly attended and kept under observation by the angler.

FEDERAL AID IN SPORT FISH RESTORATION ACT

The Illinois Department of Natural Resources receives monies authorized by the Federal Aid in Sport Fish Restoration Act of 1950 (Dingell-Johnson Act). This money is received as 75 percent reimbursement on approved projects. This Act imposed a manufacturer's excise tax on fishing rods, reels, creels, and artificial lures. The Act also protects angler's license fees by prohibiting their diversion to other than approved purposes. In 1984, the Wallop-Breaux Amendment of the Federal Aid in Sport Fish Restoration Act (D-J) was passed and allowed for expansion of the tax base to include essentially all items of fishing tackle, electric trolling motors and "flasher" type fish finders (sonar devices), motorboat fuel taxes, and import duties on fishing tackle and boats. Again in 1990, the Fund was increased by an additional increase in the federal excise tax on gasoline, and also the deposit of the federal tax on gasoline from small non-highway engines into the fund. This Sport Fish Restoration Program is administered by the U.S. Fish and Wildlife Service in partnership with the states.

Funds may be used for almost any type of sport fishery restoration, management, or enhancement project. The 1984 Wallop-Breaux Amendment mandated that each state must spend at least 10% for boat access projects, and

allowed each state to use up to 10% of its apportionment for aquatic resources education. The required 10% to be spent for boating improvements was increased to 12.5% in 1992, and 15.0% in 1998. The Aquatic Resources Education allowance was increased to 15.0% in 1998.

An annual apportionment of these monies is made available to each state. Forty percent of this amount is based on the state's land and water area in relation to the total land water of the U.S. Sixty percent of this amount is based on the number of paid sport fishing license holders in each state in relation to all the paid fishing license holders in the U.S.

The 2009 apportionment of Sport Fish Restoration Program monies to Illinois was \$8,103,793. This was used by the Department for fisheries management of state and public waters, fish production and stocking, federal aid coordination; for state Universities and research agencies to conduct investigations throughout the State to manage the fisheries resources in our streams, boundary rivers, impoundments, reservoirs and Lake Michigan; and for boat access improvements.

The future of sport fishing in Illinois has been greatly enhanced thanks to Dingell-Johnson/Wallop-Breaux.

URBAN FISHING PROGRAM

WHO?

For children and seniors.

WHAT?

Conservation oriented educational fishing clinics free of charge.

WHERE?

Clinics are held at various sites in Chicago, Rockford, Moline, Peoria, Alton, East St. Louis, Carbondale, Mt. Vernon, Springfield, Centralia, Decatur, and Urbana.

WHEN?

Clinics are held during June, July, and August.

WHY?

The purpose of these clinics is to teach sport fishing ethics, fish ecology, fish identification, fish techniques, and the proper care/preparation of caught fish.

For more information call:

Chicago & Northeastern Illinois - (847) 294-4137

Northwestern Illinois - (815) 625-2968

Central Illinois - (217) 935-9860

Southern Illinois - (618) 462-1181

The Illinois Conservation Foundation is very proud to announce it's

2010 Illinois Outdoor Hall of Fame Banquet.

Saturday, March 13, 2010

***Pheasant Run Resort
4051 East Main Street
St. Charles, IL 60174***

5:30 – 9:30 P.M. ... Complimentary Open Bar

5:30 – 7:30 P.M. ... Silent Auction and Raffles

7:30 – 8:30 P.M. ... Dinner

8:00 P.M. Induction Ceremony

8:30 P.M. Live Auction

AQUATIC NUISANCE SPECIES

Invaders in our Waters!

Your help is needed to prevent the introduction and reduce the spread of aquatic nuisance species (ANS).

Many nuisance species, such as the zebra mussel and Asian carp, have invaded the lakes and rivers of Illinois. These non-native species impact our native species through competition, predation and

habitat alteration. They can also impact our economy by clogging water intake pipes, disrupting fishing and impeding navigation.

STOP AQUATIC HITCHHIKERS!™

Prevent the transport of nuisance species.
Clean all recreational equipment.

www.ProtectYourWaters.net

When you leave a body of water:

- Remove any visible mud, plants, fish or animals before transporting equipment.
- Eliminate water from equipment before transporting.
- Clean and dry anything that comes into contact with water (boats, trailers, equipment, clothing, dogs, etc.).
- Never release plants, fish or animals into a body of water unless they came out of that body of water.

And
remember ...

**Dispose of bait
in the trash.**

For more information

on aquatic nuisance species, contact the Illinois Natural History Survey/ Illinois-Indiana Sea Grant at 847-872-8677 or visit

www.iisgcp.org/il-ans.

AQUATIC NUISANCE SPECIES

Bighead and Silver Carp Watch

Bighead and silver carp are invasive fish spreading within the Mississippi River and Great Lakes regions causing harm to native fish and wildlife.

Bighead Carp
(*Hypophthalmichthys nobilis*)

Silver Carp
(*Hypophthalmichthys molitrix*)

Bighead & Silver Carp Characteristics

- Low-set eye; large upturned mouth without barbels
- Scaleless head; body scales very small
- Adults may be more than 60 lbs. in weight and 4 ft. in length
- May jump out of the water when disturbed by boat motors
- Juveniles difficult to distinguish from local baitfish species such as gizzard shad (see photos)

What You Can Do

- Learn to identify bighead and silver carp.
- Never release live fish from one body of water into another.
- Report new sightings—note exact location; freeze specimen in a sealed plastic bag; and call the Illinois-Indiana Sea Grant Program (847-872-8677), the Illinois DNR (309-968-7531), or the Indiana DNR (317-232-4080).

Bighead Carp
Juvenile

Gizzard Shad (native)
Juvenile

Silver Carp
Juvenile

PADDLING SAFETY

Paddling down a river or across a lake or bay can be an enjoyable and safe activity. But, according to statistics, paddlers in small crafts such as canoes, kayaks, and rafts are more than twice as likely to drown as individuals operating other types of vessels.

A paddler prepares for safety by doing the following.

- Always wear a life jacket (PFD), and know how to swim in a river current.
- Never paddle alone. Bring along at least one other boater. When canoeing, two canoes with two canoeists each are recommended. Three crafts with two paddlers each are even better. If unfamiliar with the waterway, paddle with someone who is knowledgeable about it.
- Never overload the craft. Tie down gear, and distribute weight evenly.
- Maintain a low center of gravity and three points of contact. Keep your weight balanced over the center of the craft.
 - o Standing up or moving around in a small craft can cause it to capsize— a leading cause of fatalities among paddlers.
 - o Leaning a shoulder over the edge of the craft also can destabilize it enough to capsize it.
- Stay alert at all times; and be aware of your surroundings, including nearby powerboats. Be prepared to react when dangerous situations arise.
- Practice reboarding your craft in the water with the help of a companion.
- Dress properly for the weather and type of boating.
- Check your craft for leaks.
- Map a general route and timetable when embarking on a long trip. Arrange for your vehicles to be shuttled to the takeout point.
- Know the weather conditions before you head out. While paddling, watch the weather and stay close to shore. Head for shore if the waves increase.

A paddle trip downriver can include these river hazards.

- **Low-head dams:** These structures are difficult to see and can trap paddlers. Consult a map of the river before your trip, and know where dams are located. Always carry your craft around them.
- **Rapids:** When approaching rapids, go ashore well upstream and check them out before continuing. If you see dangerous conditions, carry your craft around them.
- **Strainers:** These river obstructions allow water to flow through but block vessels and could throw you overboard and damage or trap your craft. Strainers may include overhanging branches, logjams, or flooded islands. Strainers are also notorious for causing death by drowning.

If you capsize, follow these guidelines.

- Float on the upstream side of your craft. You can be crushed on the downstream side if you run into an obstruction.
- Do not attempt to stand or walk in swift-moving water. The current could pull you under if your foot becomes trapped between submerged rocks.
- Float on your back with your feet and arms extended. Float with your feet pointed downstream to act as a buffer against rocks. Don't fight the current. Use the current to backstroke your way to shore.
- If the water is cold, take all necessary precautions to avoid hypothermia.

FISHING ETHICS AND SAFETY

Code of Angling Ethics

Ethics cannot be dictated. Angling ethics develop with time, experience and interaction with others. The following code is offered as a guideline to increase awareness and encourage discussion.

An Ethical Angler:

- Understands fishing and boating regulations.
- Cares about aquatic and marine habitats.
- Keeps only fish they will eat, and properly releases the rest.
- Is respectful of others - anglers and non-anglers alike.
- Leaves no monofilament line or trash, even if left by others.
- Shares expertise with less experienced anglers.
- Cooperates with authorities.
- Fishes and boats safely.
- Preserves the sportfishing tradition.

Fishing Safety Tips

- In selecting a waterfront site, be sure that the area is free from underwater hazards, clean and, if necessary, large enough to accommodate everyone in your group.
- Inspect waterfronts daily - the natural environment is subject to change without notice.
- When choosing a site for fishing, always consider safety factors. Because fishing is practiced in a variety of environments, evaluate factors specific to safety in each environment.
- Weather is always a factor. Set up a weather committee or rotate weather forecasting responsibilities. Carry a transistor National Weather Service radio.
- Always wear footgear appropriate to the conditions.
- Stay dry, warm, and protected from the elements. Wear a waterproof sunscreen with an SPF (sun protection factor) of at least 15. Wear thin layers of clothing, and progress outward to include water and wind protection as the final layer.
- Use appropriate insect protection measures, including dressing properly and using repellents.
- Keep fishing knives sharp and cover the blade when not in use.
- Handle fish carefully.
- Use safety glasses at all times when casting.
- Establish and enforce firm rules for behavior around hooks.

ILLINOIS FISH AND YOUR HEALTH

A Guide to Your Health

Fish are nutritious, but some fish contain chemicals such as polychlorinated biphenyls (PCBs), chlordane and methyl mercury. These chemicals get into the water fish live in and the food they eat, and over time they can build up to levels that may cause health effects in people who eat the fish. It is important to keep exposure to these chemicals as low as possible. The Illinois fish advisory helps you plan what sport fish to eat as well as how often they can be eaten. *The fish advisory is not intended to discourage you from eating fish, but should be used as a guide to eating fish that are low in contaminants.*

Statewide Methyl Mercury Advisory

Since 2002, the Illinois sport fish meal advice has been presented in an expanded format. Previously, advisories based on all contaminants in fish were found in one table. Due to a more restrictive approach for methyl mercury in fish, a general state-wide advisory for predator fish is needed for women of childbearing age and children. In addition, a second table lists those waters where stricter advice for methyl mercury is necessary. **This does not mean that fish have become more contaminated with methyl mercury, only that recent studies have shown that methyl mercury is more toxic than previously thought.**

Health Benefits of Eating More Fish

Eating fish is good for you! When properly prepared, fish provide many health benefits. Many doctors suggest eating one-half pound of fish each week to help prevent heart disease. In fact, the American Heart Association recommends eating two to three fish meals per week. The benefits of eating fish include:

- Almost any kind of fish may have **real health benefits** when it replaces a high-fat source of protein in the diet. Possible health effects associated with high-fat diets include heart disease, high blood pressure, diabetes, and several forms of cancer.
- Fish offer **high-quality protein with fewer calories** than a similar-sized portion of meat. For example, both catfish and ground beef are about 18% protein. However, an 8-ounce meal of the catfish will have only about 232 calories, while the regular ground beef will have about 640 calories.
- Freshwater and saltwater fish alike are both **low in sodium and good sources of potassium, vitamins, and other minerals.**
- Fish are generally **low in cholesterol and saturated fats**, which have been associated with high blood pressure and heart disease. Eating fish regularly may lower the levels of cholesterol and saturated fats in your body.
- Scientific research has revealed beneficial roles of certain fish oils in nutrition and general health. While the benefits of fish on nutrition are still being studied, much of the current research is focused on various kinds of beneficial fats in fish, particularly a kind called omega-3 fatty acids which are in some fish and fish oils. Some studies have indicated that these fatty acids play an important role in fetal development, and also have favorable effects on health conditions such as hardening of the arteries (atherosclerosis), high levels of cholesterol, high blood pressure, and perhaps even arthritis. Note that atherosclerosis, high blood pressure, and obesity are the three major diet-related factors which increase the risk of developing coronary heart disease the cause of nearly half of all deaths in the United States today. Also, one in five Americans has a problem with atherosclerosis or high blood pressure.

Health Risks

Eating contaminated fish does **not** necessarily mean that you will experience health effects. The health problems that **may** result from chemicals that can build up in fish range from small changes that are hard to detect to birth defects and cancer. The most sensitive of these possible health effects are small changes in infant measurements, such as low birth weights (caused by PCBs), and small changes in the normal physical or mental development of infants and children (caused by PCBs, chlordane, and methyl mercury). Therefore, the meal advice contained in the following tables is primarily aimed at protecting mothers and their children. If you follow the guidance of the fish advisories, you will keep exposure to these chemicals low for both you and your children.

Cleaning and Cooking

Many chemicals are found at higher levels in the fat of the fish. You can reduce the amount of these chemicals and your exposure by properly trimming, skinning and cooking your catch. **Cooking does not destroy chemicals in fish**, but heat from cooking melts some of the fat in fish and allows some of the contaminated fat to drip away. Do not use the drippings to prepare broth, sauce, chowder or soup. **These cleaning precautions will not reduce the amount of mercury in fish.** Mercury is found throughout a fish's muscle tissue (the part you eat) rather than in the fat and skin. Therefore, the only way to reduce mercury intake is to reduce the amount of contaminated fish you eat.

Methyl Mercury

Mercury is found in the environment because of natural and human activities. When moving through the environment, mercury goes through a series of complex changes. Through these changes in lake and river sediments, an organic form of mercury, methyl mercury, is created. Methyl mercury is very persistent in the environment. Methyl mercury is transferred up the food chain to predator species, and can accumulate in people that eat these predator fish.

Methyl mercury is extremely toxic to humans and causes many adverse health effects. Health effects associated with eating methyl mercury-contaminated fish include impaired central nervous system function, kidney damage and failure, and gastrointestinal damage with higher methyl mercury exposure, and development delays in children with lower exposure. A recent report by the National Academy of Sciences concluded that the population at highest risk for adverse health effects is the children of women who eat large amounts of fish and seafood during pregnancy. This is due to the greater sensitivity of the developing nervous system of infants.

In order to protect the most sensitive populations, pregnant or nursing women, women of childbearing age, and children less than 15 years of age are advised to eat no more than one meal per week of predator fish. This advisory is based on recent studies of families in several countries that eat many meals of fish having various amounts of methyl mercury, along with the most recent mercury data from predator fish at sample points throughout the state. Predator fish include all species of black bass (largemouth, smallmouth, and spotted), striped bass, white bass, hybrid striped bass, walleye, sauger, saugeye, flathead catfish, muskellunge, and northern pike. **Since women beyond childbearing age and males over 15 years of age are at less**

risk for the effects of methyl mercury, these groups may continue to enjoy as many meals of predator fish as they please, except as noted below.

A few bodies of water have been found to have fish with higher levels of methyl mercury than in waters from the rest of the state. These waters require more restrictive meal advice than the general advice given above. The special advice is listed in the following table.

Meal Advice for Eating Sport Fish From Illinois Waters

- Measure fish from the tip of the nose to the tip of the tail.
- **One meal a week (52 meals per year), one meal a month (12 meals per year) and one meal every two months (six meals per year)** is advice for how long to wait before eating your next meal of sport fish.
- **Do not eat** means no one should eat those fish because of very high contamination. (Note that the amount of contamination in a fish listed on the “One meal a month” group is four times higher than the amount of contamination in a fish listed in the “One meal a week” group.)
- **One “meal”** is assumed to be one-half pound of fish (weight before cooking) for a 150-pound person. The meal advice is equally protective for larger people who eat larger meals and smaller people who eat smaller meals.
- Follow cooking and cleaning directions given above to prepare fish.

SPECIAL MERCURY ADVISORY

Due to levels of mercury greater than what has been found in most predator fish in Illinois, the following bodies of water require more restrictive consumption advice.

Water	Fish Species	Advice for	
		women beyond childbearing age, males more than 15 years old	pregnant or nursing women, women of childbearing age, children less than 15 years old
Ohio River	Largemouth Bass (all sizes)	1 meal/week	1 meal/month
Rock River (Rockford to Milan Steel Dam)	Flathead Catfish (larger than 29")	1 meal/week	1 meal/month
Arrowhead Lake (Cook County)	Largemouth Bass (all sizes)	1 meal/week	1 meal/month
Campus Lake (Southern Illinois University)	Largemouth Bass (all sizes)	1 meal/week	1 meal/month
Cedar Lake (Jackson County)	Largemouth Bass (larger than 12") White Crappie (all sizes)	1 meal/week unlimited	1 meal/month 1 meal/week
Devil's Kitchen Lake (Williamson County)	Largemouth Bass (all sizes) Black Crappie (all sizes)	1 meal/week 1 meal/week	1 meal/month 1 meal/month
Evergreen Lake (McLean County)	Largemouth Bass (larger than 19")	1 meal/week	1 meal/month
Heidecke Lake (Grundy County)	Smallmouth Bass (larger than 18")	1 meal/week	1 meal/month
Kinkaid Lake (Jackson County)	Largemouth Bass (all sizes) Walleye (all sizes) White Crappie (all sizes)	1 meal/week 1 meal/week unlimited	1 meal/month 1 meal/month 1 meal/week
Lake Bracken (Knox County)	Largemouth Bass (larger than 17")	1 meal/week	1 meal/month
Lake in the Hills (McHenry County)	Largemouth Bass (larger than 15")	1 meal/week	1 meal/month
Lake Jacksonville (Morgan County)	Largemouth Bass (larger than 15")	1 meal/week	1 meal/month
Lake Renwick East (Will County)	Largemouth Bass (larger than 14")	1 meal/week	1 meal/month
Little Grassy Lake (Williamson County)	Largemouth Bass (all sizes) White & Black Crappie (all sizes)	1 meal/week unlimited	1 meal/month 1 meal/week
Little Wabash River & Tributaries	Carp (all sizes) Largemouth Bass (all sizes) Spotted Bass (all sizes) White Crappie (all sizes)	1 meal/week 1 meal/week 1 meal/week unlimited	1 meal/month 1 meal/month 1 meal/month 1 meal/week
Marquette Park Lagoon (Cook County)	Largemouth Bass (all sizes)	1 meal/week	1 meal/month
Midlothian Reservoir (Cook County)	Largemouth Bass (larger than 14")	1 meal/week	1 meal/month
Monroe Reservoir (Will County)	Largemouth Bass (all sizes)	1 meal/week	1 meal/month
Mt. Olive New City Lake (Macoupin County)	Largemouth Bass (all sizes)	1 meal/week	1 meal/month
Pana Lake (Christian County)	Largemouth Bass (larger than 16")	1 meal/week	1 meal/month
Sam Parr Lake (Jasper County)	Largemouth Bass (larger than 12") Crappie (all sizes)	1 meal/week unlimited	1 meal/month 1 meal/week
Wabash River	Sauger (larger than 12")	1 meal/week	1 meal/month

CHLORDANE AND PCB ADVISORY

The following fish advisory is for eating trimmed and skinned fish (except smelt). The advice in this table has been developed to protect infants, children and women of child bearing age. The advice may be over protective for women beyond child bearing age and adult men.

Water	Fish Species	1 Meal/week	1 Meal/month	6 Meals/year	Do Not Eat

ILLINOIS CONSERVATION FOUNDATION

Created in 1994 upon recommendation of the first Conservation Congress, the Conservation Foundation (an IRS 501 (c)(3) organization) provides a means by which individuals, families and businesses can contribute to conservation efforts that might otherwise be underfunded.

The Foundation can accept financial contributions and bequests as well as gifts of land, equipment, investments, or securities. The Foundation offers menus of projects in need of financial assistance, and contributors can direct their gifts to benefit specific conservation projects, endowments or memorials.

For more information, contact the Illinois Conservation Foundation at 217-785-2003 or check out our website at www.ilcf.org

Get Hooked on OutdoorIllinois

BUY YOUR LICENSE OVER THE INTERNET!

- *Fishermen and hunters, you now have the ability to purchase fishing and hunting licenses and stamps over the Internet and immediately print it out on your printer! Boat registration renewals may also be done over the Internet.*
- *The transaction is encrypted for security purposes when traveling through the Internet. You merely complete the application and send it to us over the Internet. The system upon receipt, and provided the information submitted is correct, will process your payment (credit card payment only) and send back to your screen a web page containing an electronic license for printing and placing in your wallet. You can reduce the license size and you can retain multiple copies for your wallet, tackle box, etc. Each copy must have an original signature.*
- *To buy an Internet license, please visit the Department's Internet Home Page at:*

ANGLER CREEL SURVEYS

Regular Creel Surveys

A creel survey is one of the most valuable tools available to the fisheries manager, since it provides both angler characteristics and a measure of anglers' catch of fish (both harvest and release). Thus, careful analyses and evaluation of creel data indicate the relative success of fisheries management activities and fish stocking efforts. Creel surveys, usually conducted by trained clerks, are designed to provide a great variety of information on fish caught by anglers such as: number of fish caught, catch rate, and length/weight characteristics of fish caught. In addition, angler characteristics such as length of fishing trip, distance traveled and fish species sought are determined from the creel interview. The Department of Natural Resources, Division of Fisheries conducts a number of creel surveys on different lakes and rivers each year. Anglers encountering creel clerks should make every effort to cooperate and provide the information requested by the creel clerk.

Special Mail-In Muskie Creel Survey

The Department of Natural Resources and the Illini Muskies Alliance are co-sponsoring a mail-in Muskie Creel Survey for anglers catching any size muskie. Successful anglers should complete one of the postage-paid mail-in cards as soon as possible following the catch. Mail-in cards are available at the site office, concession stand, at most local bait and tackle stores, or by contacting any Department of Natural Resources office. Anglers can also report their muskie catch at the following web address: www.dnr.state.il.us/fish/muskiecard.htm

Take me fishing.
Because you're the
coolest grandpa ever.

Take me fishing.
And show me how
to drive the boat.

Take me fishing.
So I'll always remember you.

Water works wonders
FOR FISHING, BOATING, AND
THE ENVIRONMENT

SPECIAL REGULATIONS: Those lakes marked with an (X) in the Special Regulations column above have regulations which differ from the statewide regulations. Please check the Site Specific Regulations section of this publication or as posted at each lake where applicable. All regulations and activities are subject to change.

*10 = 10 h.p. limit; X=no h.p. limit; 0=no outboard motors allowed; E=electric trolling motors only. A=10 h.p. limit except from Lock 24 west to Rt. 82 bridge. E=Electric motors only except for Monster, Eagle, & Ponderosa Lakes where outboards are allowed. NW= motors of any size are allowed – 10 h.p. and under may operate at full speed while motors larger than 10 h.p. must operate at no wake, idle speed. P= Picnic Area Only

 - Zebra mussels have been found in these waters.

 - Some handicapped accessible fishing facilities present.

REVOCATIONS/SUSPENSIONS FOR VIOLATIONS

POINT SYSTEM

On July 6, 2004 several changes to the point system for license revocations/privilege suspensions went into effect. The changes are indicated in the shaded areas, and apply to violations occurring on or after July 6, 2004.

APPLICATION WITHIN ACTS	POINTS	GROUPS
<p>The point system applies to revocations/suspensions authorized under the following conservation laws:</p> <p>Fish and Aquatic Life Code (515 ILCS 5) Wildlife Code (520 ILCS 5) Endangered Species Protection Act (520 ILCS 10) Timber Buyers Licensing Act (225 ILCS 735) Ginseng Harvesting Act (525 ILCS 20) or any similar federal statutes or rules.</p>	<p>Each time a person is found guilty by a circuit court of the State of Illinois (including supervision or conditional discharge) or by a U.S. District Court in an Illinois District, the specific number of points assigned to such violation shall be charged against that person.</p> <p>Petty Offense = 3 points Class C Misdemeanor = 6 points Class B Misdemeanor = 9 points Class A Misdemeanor = 12 points Class 4 Felony = 24 points Class 3 Felony or higher = 60 points Any violation committed during a period of suspension = 60 points.</p>	<p><u>Group A</u> Wildlife Code, Endangered Species Protection Act (Wildlife) and Federal Offenses (Wildlife)</p> <p><u>Group B</u> Fish and Aquatic Life Code, Endangered Species Protection Act (Aquatic Life) and Federal Offenses (Aquatic Life)</p> <p><u>Group C</u> Timber Buyers Licensing Act</p> <p><u>Group D</u> Ginseng Harvesting Act, Endangered Species Protection Act (Plants) and Federal Offenses (Plants)</p>

TYPES OF OFFENSES

Type I Offenses = those offenses related to commercial/business activities covered under the Timber Buyer, Taxidermist, Aquaculture, Fish Dealer, Minnow Dealer, Mussel Dealer, Game and Game Bird Breeder, Wild Game Food Dealer, Fur Bearing Animal Breeder, Fur Tanner or Migratory Waterfowl Hunting Area licenses and permits

Type II Offenses = All other offenses related to activities covered under licenses and permits. (Example: hunting, trapping, fishing, etc.)

COMPUTATION OF SUSPENSION PERIODS

For Type I Offenses, any person who, within an 18 month period, accumulates 13 or more points in a single group shall have all licenses, permits and stamps relevant to engage in the activity revoked, and the person's privilege to engage in the activity shall be suspended for a period of time that equals one month for each point accumulated. All accumulated points shall remain in effect for 18 months from the date of arrest that resulted in the point accumulation and shall not be removed or reduced by a period of suspension. Any second or subsequent suspension imposed shall be served consecutively to any earlier suspension.

For Type II Offenses, any person who, within a 36 month period accumulates 13 or more points in a single group shall have all licenses, permits and stamps relevant to that type and group revoked, and the person's privilege to engage in the activity covered by the type and group shall be suspended for a period of time that equals one month for each point accumulated. All accumulated points shall remain in effect for 36 months from the date of arrest that resulted in the point accumulation and shall not be removed or reduced by a period of suspension. Any second or subsequent suspension imposed shall be served consecutively to any earlier suspension.

SINGLE INCIDENT RULE

The Single Incident Rule shall not be applied in any cases where the highest level violation is a Class A Misdemeanor or higher (12 points or greater) or in cases where violations occurred while the individual was suspended.

In the event that multiple findings of guilt are entered against an individual arising out of a single incident or act, full points shall be assessed only for the finding of guilt with the highest point level with additional points being assessed for the remaining findings of guilt as follows:

Petty Offense = 1 point
Class C Misdemeanor = 2 points
Class B Misdemeanor = 3 points

NEW POINT SYSTEM FOR REVOCATIONS/SUSPENSIONS CONTD.

EXAMPLES:

A) Type I - Findings of Guilt for Separate Incidents: A person found guilty of violations of no taxidermy license and failure to keep proper records (both Class B Misdemeanors, 9 points each) occurring on different dates is assessed the full 18 points, and revocation of taxidermy license and suspension of taxidermy privileges only is imposed for a period of 18 months.

B) Type I - Findings of Guilt for a Single Incident: A person found guilty of the same violations as A) above (2 Class B Misdemeanors) arising out of a single incident has no revocation/suspension imposed, with 12 points assessed (9+3).

C) Type II - Findings of Guilt for Separate Incidents: A person found guilty of unlawful possession of freshly killed whitetail deer during closed season (Class A Misdemeanor - 12 points) and taking an over limit of quail (Petty Offense - 3 points) has his/her hunting license, trapping license, migratory waterfowl stamp, habitat stamp, deer/turkey permits, etc. revoked, and Type II privileges suspended in Group A for a period of 15 months.

D) Type II - Findings of Guilt for a Single Incident

1) A person found guilty of violations of taking game birds with a rifle and no hunting license (Class A Misdemeanor and Petty Offense) arising out of a single incident is assessed 15 points and suspension imposed as described in C) above. **The Single Incident Rule does not apply to cases where the highest level violation is a Class A Misdemeanor or higher.**

2) A person found guilty of violations of taking deer without a permit and no hunting license (Class B Misdemeanor and Petty Offense) arising out of a single incident has no revocation/suspension imposed, with 10 points assessed (9 + 1).

E) Imposition of Subsequent Suspensions

1) The person in C) above completes the 15 month suspension, and two months later (less than 36 months from the date of the first violation) again unlawfully possesses a freshly killed whitetail deer during closed season and is found guilty (12 points). This person's licenses are again revoked and privileges suspended for a period of 27 months (15 + 12).

2) The person in C) above is found guilty of a violation under the Wildlife Code that occurred during the time that his/her privileges were suspended - 60 additional points are assessed and a second suspension is imposed, to run consecutively after the first suspension (15 + 60 = 75 months total).

ADMINISTRATIVE ACTIONS AND ADDITIONAL PROVISIONS

The Department of Natural Resources may also hold an administrative hearing to revoke licenses/suspend privileges in certain egregious cases, wherein a person has had a finding of guilt (including supervision or conditional discharge) in a circuit court of the State of Illinois or by a U.S. District Court in an Illinois District, regardless of whether or not sufficient points for suspension have been reached.

In addition, the Illinois Fish and Aquatic Life Code and Wildlife Code provisions regarding the revocation of licenses/permits and suspension of privileges also include the following: Any person whose license or permit has been revoked or his/her privileges suspended may not, during the period of revocation/suspension 1) be in the company of any person engaged in the activity covered by the revocation/suspension, or; 2) serve as a guide, outfitter or facilitator for any person who is engaged or prepared to engage in the activity covered by the revocation/suspension, until such time as the period of revocation/suspension is completed and the appropriate licenses/permits have been obtained.

REVOCATIONS/SUSPENSIONS IN OTHER STATES AND CANADA

It shall be unlawful for any person to be issued or obtain an Illinois license or permit or while in Illinois, engaged in any activity regulated by the Illinois Fish and Aquatic Life Code or Wildlife Code during the time that person's privileges to engage in the same or similar activities are suspended or revoked by another state, by a federal agency or by a province of Canada.

PENALTIES FOR VIOLATIONS OF REVOCATIONS/SUSPENSIONS/DENIAL OF PRIVILEGE

Persons who violate the prohibitions of their revocation/suspension/denial of privileges shall be guilty of a Class A Misdemeanor with penalties of up to 364 days jail time and up to \$2500.00 in fines.

For more information, contact the Department of Natural Resources - Office of Law Enforcement at (217) 782-6431, or visit www.dnr.state.il.us

BOUNDARY RIVERS SPORT FISHING

Illinois-Iowa

Officers of Illinois and Iowa will recognize and accept valid sport fishing licenses of either state when legally possessed and used by hook-and-line anglers on the Mississippi River proper forming a common boundary between Illinois and Iowa, including its backwater lakes and sloughs **contiguous with the flow of waters in the main channel; provided that you do not fish from or attach any device or equipment to the main bank of the Mississippi under the jurisdiction of the state where you are not licensed to fish.** You can not fish in any tributaries of the opposite state. You must conform to the regulations of the state in which you are fishing unless the regulations of your licensing state are more restrictive, then you must conform with the more restrictive regulations. The center of the navigation channel is the boundary between Illinois and Iowa. **Tournaments fishing Iowa waters must have Iowa tournament permits, even if launching from the Illinois side of the river.**

Illinois-Missouri

Officers of Illinois and Missouri will recognize and accept valid sport fishing licenses of either state when legally possessed and used in the Mississippi River and its backwaters within the boundary of Missouri adjacent to the state of Illinois. **Persons licensed in only one state may also fish in the other state's portion of any oxbow lakes through which the Illinois-Missouri boundary passes, and may fish from or attach any device or equipment to land under the jurisdiction of the other state.** Persons licensed in only one state may not fish in tributaries of the Mississippi in the other state. Anglers shall comply with the regulations of the state in whose waters they are fishing unless the regulations of their licensing state are more restrictive, then must comply with the more restrictive regulations. The center of the navigation channel is considered the boundary between Illinois and Missouri, except in situations where it is clearly shown to be elsewhere.

Illinois-Kentucky

Each state will recognize the sport fishing licenses and appropriate permits of the other state on the main stem and from the banks of the Ohio River, excluding embayments and tributaries where the Ohio River forms the state boundary. Embayments and tributaries shall be defined as a straight line between opposite points where the tributary or embayment connects with the main body of the Ohio River.

The fishing regulations adopted by the state issuing a sport fishing license apply to the licenses when fishing each state's respective waters, except that, all fishermen shall conform with the regulations of the state in which they are fishing, unless the regulations of the fishermen's licensing state are more restrictive, then the fishermen must conform with the more restrictive regulations. The regulations of the state where the sport fishing is occurring apply, if the licensee is fishing from the bank.

Wildlife law enforcement officials of either state shall have the right to inspect the licenses, harvest limits, creel limits, and equipment of any person on the Ohio River subject to the laws of either state.

Officers of Illinois and Kentucky will recognize and accept valid sport fishing licenses of either state when legally possessed and used on the main stem of the Ohio River, **excluding embayments and tributaries.**

Illinois-Indiana

Officers of Illinois and Indiana will recognize and accept valid sport fishing licenses of either state when legally possessed and used on the Wabash River forming a common boundary between Illinois and Indiana. **Anglers shall not fish on water beyond the natural and ordinary river banks of the state in which they are not licensed to fish. Anglers shall not fish from land attached to or taxed by the state in which they are not licensed or fish in tributaries, bayous, or backwaters of the state. Anglers must abide by the laws of the state in which they are fishing.**

- Get up-to-date fishing reports each week from area bait and tackle shops and local biologists for over 100 major fishing lakes and 8 major rivers. Hyperlinks to real-time (live) and report time water levels for determining water conditions.
- Discover boating and recreation opportunities on Illinois' top fishing lakes and rivers. Review fishing season prospects. Download and print depth contour maps.
- Go to kids and family fishing corner and find areas where to catch a ton of kid-sized fish with easy access for the family! Fishing games and basic fishing skills.
- Download fisheries reports and surveys directly from the biologists and scientists of the Illinois DNR.
- Print fish facts for reference to improve your chances of catching the "trophy of a lifetime." Links provided to other important DNR sites.
- Research fish life histories and general info on how to catch them.
- Download fishing guide booklets for Illinois' finest trophy waters.
- Locate boat and canoe access area and those fishing hotspots.
- And much, much, more...Visit our website soon!

VHS REGULATIONS

Viral Hemorrhagic Septicemia

Viral Hemorrhagic Septicemia (VHS) is a disease of fish caused by a virus previously unidentified in the Midwest. While it does not affect humans, VHS can kill a substantial number of fish and has been spreading throughout the Great Lakes.

The new regulations we are implementing are immediate and appropriate steps in trying to slow the spread of this dangerous aquatic virus in Illinois. Sport fishing and boating are both very popular and important to the Illinois economy. The cooperation of anglers and boaters is essential in combating VHS.

The new regulations being implemented by the Illinois Department of Natural Resources (IDNR) regarding VHS that affect **recreational anglers and boaters** include:

- Eliminating natural water from all equipment when leaving a body of water.
- Emptying and draining all bait buckets, livewells, baitwells, bilges, etc. or any other compartment capable of holding natural waters when leaving a body of water.
- Do not remove live VHS-susceptible species (see below) from any waters. Anglers may catch and keep VHS-susceptible species, but may not transport those fish live from the waters where caught.
- Use of wild-trapped fishes from within the state as bait will be restricted to the waters where legally captured.

Black crappie

Bluegill

Bluntnose minnow

Brown bullhead

Brown trout

Burbot

Channel catfish

Chinook salmon

Emerald shiner

Freshwater drum

Gizzard shad

Hybrid (Tiger) muskie

Lake whitefish

Largemouth bass

Muskellunge

Shorthead redhorse

Northern Pike

Pumpkinseed

Rainbow trout

Rock bass

Round goby

Silver redhorse

Smallmouth bass

Spottail shiner

Trout-Perch

Walleye

White bass

White perch

Yellow perch

While VHS is not known to be a threat to human health, anglers are still advised to wash their hands after handling fish and to cook thoroughly any fish they plan to eat. If handling dead fish or fish that appear to be diseased, protective gloves should be worn. For more information on VHS and the new Illinois regulations aimed at slowing the spread of the virus in Illinois, check the IDNR web site at <http://dnr.state.il.us>

LEAD TACKLE ADVISORY

The tackle industry, recognizing a growing awareness and concern about lead in the environment, has begun to create steel, tin, bismuth, or plastic sinkers. Consider using non-lead tackle when you go fishing.

Here's what you can do to help:

- Ask local sporting good stores to stock non-lead fishing tackle.
- Spread the word by telling other anglers about the problem.
- Dispose of old lead sinkers and jigs properly by locating a drop-off location.

MONOFILAMENT ADVISORY

Monofilament Can Kill!

If not Used or Disposed of Properly!

The Illinois DNR would like to remind all anglers that the improper use and disposal of fishing line (a.k.a. monofilament) can have a dramatic impact on our wildlife. In addition to being an eye-sore along our waterways, many shore birds, migratory birds, waterfowl, and raptors have become entangled in monofilament and died.

HOW ANIMALS COME IN CONTACT WITH MONOFILAMENT

There are a variety of ways animals encounter monofilament. Shore birds and waterfowl have been entangled in the litter while wading or swimming. Raptors and fish-eating waterfowl have ingested hooks and monofilament from fish that broke the line. Some migratory birds have used it as nesting material.

Starvation is the most common demise for animals encountering monofilament. The line wraps around the neck or accumulates in the stomach, preventing the ingestion of food. It can also immobilize the animals by wrapping around the legs, or securing them to stationary objects.

HELP FROM ANGLERS

Help from all anglers is needed to reduce the amount of fishing line in the environment. By using common knowledge and respecting our waterways, we can all help to reduce the risk of wildlife related mortalities due to monofilament.

- Properly dispose of unused monofilament in trash containers.
- Use the appropriate test line for the desired fish and fishing technique.
- Replace monofilament yearly. Replacing your monofilament annually can reduce the chance of breaking the line.
- Take the initiative while enjoying Illinois' waters. Help keep Illinois' waterways clean by picking-up discarded monofilament and tackle along the shores. An ounce of prevention is worth a pound of cure.

We Salute **TRACKER®** Boats *Fish the Finest!®*

Thank You For Your Sponsorship!

The Sportsman's Paradise!

Inside **Bass Pro Shops® Outdoor World®** at Gurnee Mills lies every outdoor enthusiast's perfect vision... tens of thousands of square feet packed with the largest fishing, hunting, camping, and boating selection in the Midwest. Plus, check out the huge array of boats in our **Tracker®** boat showroom, featuring **Tracker** and **Nitro®**, the best selling boats in the world. All this and much more only at Chicagoland's Great American Outdoor Store—don't miss it!

The Official Walleye Boat and Motor of the Illinois Conservation Foundation

Tracker® is proud to offer the world's finest boats, including the TARGA™ 18, featuring a Deep-V hull for big water confidence!

Chicago, IL

6112 W. Grand Ave.
Gurnee, IL 60031

MotorGuide

THE WORLD LEADER IN CLEAN MARINE POWER.

THE CLEANEST POWER ON THE WATER.

No one is more devoted to developing and refining clean power than Mercury Marine. Our lineup of FourStroke and DFI outboards is the cleanest in the industry – and all MerCruiser® sterndrives, inboards and tow sports inboards are three-star rated (by the California Air Resource Board [CARB]). The three-star ultra-low emissions label identifies engines that meet CARB's 2008 exhaust emission standards. Engines meeting these standards have 65 percent lower emissions than one-star engines. In fact, Mercury Marine has more three-star rated engines across our product lines than any other engine manufacturer in the world!

TOGETHER, WE'RE MAKING A DIFFERENCE.

Mercury Marine is proud to be in partnership with renowned organizations across the country to ensure a clean marine environment for current and future generations. Clean lakes and rivers provide better fishing, more enjoyable boating and a better environment for everyone.

Proud sponsor of the
ICF Hall of Fame.
